San Antonio Nov 15 1868.

Major

I have the honor to acknowledge the receipt of your communication of this date together with a copy of the letter of Messrs Marks & Co. addressed to yourself.

It is gratifying to me to be thus enabled to put in writing what I wished to be understood as saying in the conversation evening in the managing portion of that firm & yourself.

Having examined before leaving for Brownsville the invoice of goods in store at Matamoros which Messrs Marks & Co. through the managing partner W. Cain assured me he was ready to deliver on your order and which you and he stated had been imported by the firm at your official request. I wrote to the Lt Genl Commanding on the subject. when on our route to Brownsville we were stopped near Kings Ranch by the intelligence that port had been occupied by the Enemy the managing partner of Messrs Marks & Co. being in our party I suggested to him at once to proceed to Matamoros & send the supplies to Eagle Pass, I told him the suggestion was solely prompted by the belief the Dept. was greatly in need of the supplies contained in the invoices exhibited to me. I also

700
stated to him I wished him to understand
I was not authorized to make contracts for the
Gov^t but would state the facts to L^d Gen^l Smith
who I believed would see to the punctual
payments in Cotton of the supplies delivered
with a reasonable profit to the firm - He declined
to act on the suggestions for reasons which
are apparent to the mind of any merchant ac-
quainted with the circumstances, and which
I thought very proper - He stated to Col Terrell
Judge Devine & myself his reasons for not adopting
my suggestions - As he recognized you as the only
authorized agent of the Gov^t to contract for
supplies imported from abroad he decided to
return to San Antonio and make some new
arrangements with you.

On yesterday afternoon I was present
at a conversation between you & the managing
partner of Messrs J. Marks & Co. in regard to these
new arrangements. I approved most heartily
of that gentleman's apparent (& I believe real)
anxiety to assist this Dept. by the speedy delivery
of the supplies in his warehouses - you declined to
make any engagement to pay for the supplies
in Cotton or otherwise unless you could be assured
that your branch of the service would not be
interfered with. I stated when called on for
such an assurance that I would represent, he

facts to the Lieut Genl. Commanding I would make
such recommendations as to ensure a prompt &
punctual payment for the supplies in cotton, when
they were delivered. It was & is impossible for me to
Commit my personal & official honor upon the
happening of events which I cannot control. I am
unwilling to give & positively to give any other as-
surance than this, that I will represent fully the facts
of the case to the Lieut Genl. and will recommend to him
to prevent any interference with the performance of
your part of the Contract. This much I consider
my duty as a member of his staff & an officer
of the Army to do, and I must frankly disclaim
any intention thereby of committing myself in advance
to any opinion as to the results of the investigation
now in progress. You are as far as I am informed
the sole purchasing agent of the Govt. in Texas au-
thorized to make purchases of goods imported from
abroad, and as such the only officer competent
to make the arrangement with J. Marks & Co.
Regarding you with this view it is obvious to me
that you should not be permitted to be interfered with
in the performance of your duties.

In reply to your suggestion that
I should be associated with yourself and
Majr Bloomfield in connexion with the
Cotton interest of the Department, it is only
necessary for me to state with due courtesy

to both of you that I would rather die a Soldier's death
than to have any connection seperately or with
any associates with the purchase, sale trans-
portation or imprisonment of Cotton in this Dept.

I shall forward a copy of this
Correspondence between us to the Lt General
Cassidy

Interview with the firm of
J. Marks & Co. - all at once -
A large amount of army
supplies at Matamoros.
Urges the Chief of the Cotton
Bureau to go at once to
Brownsville - &c.

San Antonio Texas

Oct 31st 1863.

Colonel

I have the honor to inform you that I have had a conversation with a Mr. Cain of the firm of J. Marks & Co at Matamoras in which he stated that he and other parties in that City who had large amounts of Army supplies on hand were willing to turn over their goods to the Confederate authorities at Brownsville at "reasonable rates" if they could have any assurance they would get cotton in exchange for them within a "reasonable time". I examined the invoices of J. Marks & Co and find the supplies very valuable & I presume very much needed - Their value in specie I think is over a quarter of a million.

When I get to Brownsville I propose to go to Matamoras and after ascertaining by actual inspection that the Army supplies are in the hands of the parties ready for delivery - I shall get them if

I can to make out a proposition stating definitely the terms ^{which} upon they will deliver there - A copy of this proposition accompanied with copies of the invoices I propose to send to you - As a matter of course you understand I have no idea of accepting any proposition they may make. I shall merely obtain it if I can for its consideration by the proper authorities.

Let me to say to you however that I think it of the utmost importance to the interests of the Govt that the Chief of the Cotton Bureau should go as speedily as possible to Brownsville.

The experience there acquired by observation & the information obtained will be of great advantage to you I am assured. Besides, being there in person, you can arrange matters with the Customs of the Govt at Matamoros on a satisfactory basis & in my opinion will have no difficulty in obtaining an almost unlimited amount of Army Stores. Except perhaps Ordnance I shall write you from Brownsville as soon as I learn anything I think you ought to know. If you should happen to think this an intrusion on

your sphere of action. I hope you will
find a sufficient apology in my
extreme anxiety to promote your official
success and thereby the advancement of
the interests of the public service.

Announcing the evacuation of
Birmingham by the Confederate
forces. His views in regard
to the system of permits -
exemptions - Contractors &c -
The difficulties of Major
Hart - &c -

San Antonio Texas

Nov 19th 1863.

Col

Your last letter was recd several days ago on my return from an attempt to get to Brownsville.

My associates, Capt Trowell and Judge Devine, and myself got within 22 miles of Kings Ranch when we were met by the official intelligence that Genl Bea had evacuated Brownsville and the enemy were preparing to occupy it. As a matter of course we turned back. I think it likely the present situation and the turning out to make the war a multitude of sins. Maj Russell I am told went over to Matamoros. I suppose he is to look after Genl Property there, though I do not know what is the object of his visit. I am not aware that any one has heard from him, but this is not surprising as I have not yet heard from Capt Ducaut who also crossed over to the Mexican side. I hope to hear in a day or so.

The investigation of alleged cotton frauds is slowly dragging along. The task has assumed tremendous proportions and to perform it completely and thoroughly

will require the labor of many months and per-
haps several years. I think however I have
learned enough of the cotton transactions to say
that the great confusion and injury to the country
has resulted from the pernicious system of
contracts and permits and exemptions. The
Contractors have possibly in some instances
benefitted the Army to a limited extent.
But in most, if not nearly all, instances
they have brought little or no supplies
into the Confederacy. But even if every con-
tractor had fully complied with his contract
the system is a most pernicious and unjust
one to the honest people and to the Govt.
I make this remark because the Govt though
its only constituted purchasing agent
could, but for these contractors, supply the
Army (and I may add the people) most
abundantly at about one third the rates
charged by contractors. In addition to
this it is well known the great competition
for cotton created by the Govt of contractors
in the market has tripled the price of
that staple within the last twelve months.
Permits to export and exemptions from
impoundment, to say the least of them,
however easily granted and are unjust
and ought not to be tolerated. It is
unworthy of an honest man to avail
himself of his official station to put one

citizen on a better footing for trade than
another, when the law of the land places
all on equal ground. This I consider is
done whenever a permit for exportation or an
exemption from importation is granted.
Again, Contractors & persons holding permits
and exemptions were not the only competitors
of the purchasing agent and his subagents
in the Cotton Market. The Military Board
of Texas - the supply associations - and
Mutual aid associations were in the market
bidding high for cotton and having
advantages on account of their local
sympathies over any Govt Officer in pro-
curing transportation. I mention these
things to you as some of the difficulties
which May Hart had to contend with, and
I do so without committing myself to an
endorsement of his integrity or efficiency. It
is apparent to me that any man in his
position with the difficulties he has encountered
would have been pronounced a failure and
it is also apparent that the most irreproachable
character might have been assailed against the
officer charged ^{it} was surrounded by so many
parties whose intent it was to impair his
usefulness. I am conscious of no prejudice
for or against May Hart and therefore write
freely upon this subject of his embarrassments.

I hope something has been done by May

Bryan to settle upon some fixed policy in
regard to the cotton question in Texas and I
hope what you may be retained as Chief
of the Bureau for the Texas Missions, as an
act of justice to you, or if relieved that the
St. Paul Convention will ^{in order} quite and induce the
sensible and patriotic sentiment which prompted
you to ask to be relieved.

Keeping to hand from you again

I remain, dear Sir,

Very truly
Yours

Mexican carts, all loaded
with cotton - Suggests that
this cotton is chiefly owned by
parties who have no right to
export - & therefore the
cotton should be impounded

San Antonio Texas

Oct 2nd 1863.

Colonel

I have the honor to inform you that I have just learned from an acquaintance who returned yesterday from Eagle Pass that he met on the road leading thence about one thousand Mexican carts loaded with cotton. Each of these carts carries not less than six bales. If the estimate is correct this would make six thousand bales of cotton going by that route to Mexico. I am satisfied that most of this cotton belongs to private parties and ought to be impressed. Most of it perhaps belongs to Mexican citizens who have sworn they have imported its value into the Confederacy; some of it belongs to bogus agents of the Govt who have no right whatever to deal in cotton except as private citizens.

I mention that most of it belongs to Mexican citizens as stated, because a large portion of the cotton impressed by Maj Dickinson in his command ^{11,872 bales} he tells me was released as the property of "bona fide" Mexican citizens by an order

of May but I regret - I am not aware
that St Luke Smith gave foreigners the advan-
tage over our citizens.

As I expected I am detained here until to-
morrow through Col Terrell. He is awaiting
the company of Judge Devine Confederate Judge
of this district. He will be a valuable acquisition
at Brownsville on account of his official
position and his extensive acquaintance. I
am really very much pleased at the prospect
of having this company.

Nelson Clements estimated Octbr. for 4000 stand arms. 100,000.00

Messrs. Jonas Marks & Co., besides the stores actually delivered have had in store, subject to my order and ready for delivery, since February last, stores to the amount of Eighty Eight thousand dollars, estimated as follows. Since the month of July last the same firm has held subject to my order and ready for delivery further quantities of stores which were specially ordered by me, to the amount of about Five hundred thousand dollars. These stores of Messrs Jonas Marks & Co. have not been delivered by them because of the want of transportation to the interior.

A contract with Messrs Stillman, Kennedy & King for the delivery to Brig. Genl. Bee's Command, - estimated at Five thousand men, - of Quarter Master's and Subsistence stores, is in existence; - on this contract I have delivered Five hundred bales of Cotton per month. - The contract is for six months and commenced May 1st 1863. - The stores under this contract have been delivered by the contractors to General Bee's command, yet, Major Russell Brig^d Qr. Master has never reported to me the amount received or prices paid, notwithstanding I have com-

communicated through Dist. Wd. Dir. requiring this information to enable me to make due and timely reports to the War Department as required by the Circular of March 24th 1863 from the Quarter Master General's office, and approved by the Secy. of War.

I have ordered from Mr. C. B. Nichols stores which will amount to from one and a-half to three millions of dollars, and here beg to refer you to the list of articles exhibited to you, a copy of which was forwarded by you to Lt. Genl. Smith's Head Quarters.

From Mr. Nelson Clements, stores which are estimated at the sum of from three and a-half to four hundred thousand dollars have been ordered by me. For an enumeration of these I beg to refer you to the invoices in my office at Brownsville.

The stores from both Mr. Nichols and Mr. Clements here and are arriving. For further information I beg to refer you to my office at Brownsville.

I am informed that Major Russell Brig. Genl. of Brig. General Bee has made large purchases from Messrs. Droege, Oetting & Co. at Matamoros, and perhaps from others, and that he gave certified vouchers with the expectation that they would be paid by me. For these articles no requisitions were ever made on me or my office at Brownsville, at which place in my absence I had a very competent agent, nor was I advised of such purchases or the necessity thereof. I learn unofficially that Brig. Genl. Bee gave the orders for these purchases. My agent can inform Major Williamson that there existed no necessity for Genl. Bee to give these orders as he, my agent, was instructed to make the necessary purchases upon proper requisitions on my office at Brownsville, and was also instructed as to terms and prices, of which latter I am not informed, nor ever have

been consulted. -

Information has reached this office that Major Russell proposed to the Supercargo of the 'Gladiator', - the ship containing the stores sent for by me through Mr. W. Clements, - for the turning over to him the cargo of this ship, - that he, Major Russell, would give on account six hundred bales of cotton from the 20% cotton taken by Genl. Bee's order, - that a very small portion of these stores were so turned over and that Major Russell gave to this ship 150 to 200 bales of the 20% cotton. - General Bee in the absence of Major Russell having requested the delivery of all entire cargo, promising to pay for it from the 6000 bales of Cotton, within 60 or 70 days, to be sent by Major B. Bloomfield Chf. Dr. Mr. Dist. of Texas. - I beg to call Major Williamson's special attention to the great extravagance of Brig. Genl. Bee's command. - The very large sum which is due by this office alone for the various supplies furnished them through my office at Brownsville. - The amount of these supplies will be exhibited to you at my office in Brownsville. - I have always opposed this and never failed to remonstrate against this extravagance with General Magruder Comdg. the District. -

I made an agreement with Mr. Clements for the delivery of twenty thousand and stand of Enfield Rifles complete with accoutrements and a large quantity of corresponding fixed ammunition. - Of this item only four thousand and stand of arms, as I am advised, have been delivered, - and this item has been credited to Mr. Clements in the foregoing list of debts. -

I am, Major, Very Respectfully,
Your Obedt. Svt.

This I willingly forwarded with the remittance, that I have no control over the subject referred to in these papers. As the Lt Genl commanding has however done one the Honor to direct ^{me} to make such suggestions as I may think proper to correct existing evils and to prevent their recurrence in future" I have the Honor to suggest that the confusion which has arisen in the matter referred is due to two facts.

1st That the order of the Lt Genl commanding in his letter of June 27 1863. to impress cotton to pay for certain cargoes was disobeyed by the substitution of an expedient and of exemptions rather contemplated nor authorized by him, as far as I am informed. For instance - officers at Brownsville instead of executing the order adopted the expedient of making an arrangement to obtain for the use of the Genl as a loan 20 bales of the cotton ordered to be impressed at that port; and for instance, out of 11,872 bales of cotton impressed in his command by Major Dickinson all but 727 bales were released -; and 1300 of which were released by special orders of the Maj Genl commanding the District and a very large portion of the remainder by an order contained in a letter of his dated July 15 1863 which extends the exemptions made by the Lt Genl commanding. so as to include contracts

"whose goods have already arrived and are
ready for delivery on the Rio Grande" and
"such cotton as is bona fide held by Mexicans,"
2nd

Instead of the impressed cotton & that
obtained by the forced loan of 20 gr. it being
turned over to May S. Hart 2^d Lt. and the
purchase of army supplies being confined to
that officer as directed by the accompanying
Circular of The Quartermaster and approved by
The Secretary of War his position seems to have
been ignored, and another officer, May
Thomson 2^d Lt. of Big and Big's Command, was
made a purchasing agent at Brownsville. I
use the term purchasing agent because it was
made that officers duty to receive the cotton
and exchange it or its proceeds for supplies.
This would seem to make him a purchasing
agent whether or not he made the original con-
tracts for the shipment of the goods from
Europe to the Rio Grande.

Without expressing an opinion in regard to
May S. Hart's efficiency or integrity I may
be allowed to remark the seems to have
been the proper official to receive the
impressed cotton and to exchange it for
the army supplies - I think so because of
the duties to which he is assigned; and because
an officer entrusted as he was with those
duties by The Secretary of War, is entitled
to the exercise of those duties he is relieved.

I have the honor to be

Decr 12. 1864.

Col. W. B. Brown.

St. Louis, Mo.

Dear Colonel:

I wrote you several days ago in reference to an appointment under the new cotton order. Since then I see that positions have been conferred upon Mr. Smith & Mr. Agent, but I am left in the dark as to what is to be done with me. I do not know whether or not Capt Black intends offering me a position, or whether he has it in his power to give me one at all. I would say this much on the subject: I am in San Antonio & have my family here, and do not care particularly to move them back to Marshall; besides their condition of health is such as not to admit of their being removed for some time to come. Under the circumstances I have thought that could you obtain for me some honorable position either under the New Regulations, or in some other department that would continue me out here with a sufficient salary ~~salary~~ to ensure me a support it would place me under many obligations. A good position which would afford me such support and be suited to my capacity, would justify me in resigning my position in the Army, more especially as the condition of my eyes render me unfit for field service. Besides I

have no for one, and very little fit for the Commissary
Department. I would prefer a foreign position to any
other, provided I could be as useful to the Confederacy
but not otherwise.

I am anxious for two things: 1st To know as speedily as possible
what is to be done with me. 2^d To get a place suited
to my capacity that will enable me to live with my family &
support them decently. I would prefer retaining my rank,
if possible, but if not will give it up for a desirable
civil position. In fact, Col. I do not like uniform. The
year is fast coming to an end, and I want to know what
is to become of me, so that I may make my arrangements
accordingly.

I can wind up the business of the Permit ^{office} in a few weeks
after it expires, but it will require a much longer time
to settle up the affairs of that responsible position in which
you placed me of General Receiver of Cotton for this District.

What reports will be required of me as to my action in
the Permit office? I never was in a better condition in
my life to make straight reports of my conduct
and yet none seem to be required of me.

Let me hear from you, Colonel, at your earliest convenience.
I thought it probable that you would be discussing the question of
what should be done with me. I would perhaps like to know what
I would prefer -

Dear Sir:

Gen order 84 provided that the issuing & using of permits should cease after the 1st Feb 1864. Gen order 88 repeals 84, and provides that Certificates, exempting Cotton from seizurement with the right of exportation, issued by authority of W. A. No 88 applies to certificates and is your authority. My permits are not by your authority. But Judge Gray's circular requires collectors to respect my permits issued before first of Feb. But I am not acting under Judge Gray. Under the circumstances, please obtain from St. Col. W. A. Broadwell some order or construction which will authorize or prevent my issuing permits after 1st Feb next. I am much at a loss to know what course to pursue. Thousands of exemptions will be issued in the latter part of ^{Jan'y} ~~February~~ & the parties ought to be allowed to export their cotton.

As I wrote you before, I would like to have time to wind up the business of my two offices here. One of which at least is much embarrassed.

Col:

What do you think of this new regulation of Judge Gray to the effect that my permits must be used by 1st of Feb next? I think it a hard case myself. Parties have turned over their cotton to the Govt in faith that they should be allowed to take out a like quantity. Judge Gray's original instructions were to the effect that if the permits were obtained by the 1st Feb. the cotton could go out at any time, and now, after they have delivered to the C.S., one-half their cotton under this impression, and it is too late to be remedied, an order comes out, which acts as a prohibition upon their exporting the other half. For the time allowed is too short to get cotton even from the interior of Texas to the Rio Grande.

I have nothing more to say upon this subject, as comment is unnecessary.

I have been losing my head for the past 3 or 4 weeks trying to secure the rights of exportation which have been acquired through the efforts of the Agents of the Cotton Bureau. These agents have furnished to me an average more than 100 questions per day. at least for the

first two weeks - and I have written all day & at least
one-half of each night trying to push up, but I shall
fall some hundred behind by the 1st February. Of course
the rights of the parties will be reported upon all ex-
emplars filed with me before the 1st Feb next. I have
received your various telegrams through Capt Wells & your
arguments will all be attended to. One month of Con-
stant labor after 1st February will not strengthen at the
business of my office.

I saw Col Ford some two days ago. He seemed anxious
to give me a place, but had none at the time subject to
his disposal. Said he would write to me from Brownsville
on the subject. I am not sure but that a good & com-
modious position with Mr. Thomas would not be better than
any in the Cotton account. But still cannot now say
definitely what would suit me best. I know one
thing - that my ~~last~~ months residence in San Antonio
has brought me \$300 in debt, & I have lived poorly all the
time. A few more months would break me completely. I
shall send my family to the Progen in a few weeks, & if I
am allowed to continue two or three months longer here
for the purpose of settling up the affairs of my two positions (it
will require at least that time) I may own a little. August
has gone to Madrid, & I am far behind in getting receipts
for cotton shipped to the Progen Co. These must all come in &
be received, corrected & abstracted before I can live in peace.

My Dear Col:

I have received your two favors of 21st ult. I think your letter to Judge Gray is forcible & convincing, and that his reply is unsatisfactory and does not meet the question. Such also is the opinion of our friend, Mr. Twichell, to whom I showed the correspondence. I return you Judge Gray's letter, but will retain yours if you do not want it.

In reference to Mr. Pope's detail I would state that I have no official information that it has been revoked, but have heard through private letters, that such orders had been or would be issued from Dist. H^q. 2^d. I have got him to write to the Colonel of his Regiment to ascertain the cause of the revocation. Mr. Pope supposes that it is because the Surgeon's certificate was made out in an informal manner. The fact that he is wholly unfit for field service is however fully testified to by the Surgeon, and this ought to be sufficient. I should think it a peculiarly hard case, if I had to give him up, more especially when we take into consideration the fact that ~~he is~~ perhaps he is the only detailed man ~~present~~ in the Cotton Dept at San Antonio who has a Surgeon's certificate of disability. That he receives only half as much as other clerks in the Bureau who are placed in like responsible positions; that he has three times as much work to do as any of the balance. And moreover I have been allowed but one

clerk to do twice as much business as is done by three or four in other offices, it would seem nothing but right to allow me that one from among the soldiers of the country, who have broken down their health in battling for the liberation of our people. Do not misunderstand me, Col. as complaining of you or others in authority: for I have no cause for complaint, having been treated with the kindest consideration both by yourself, and all others at the head of affairs in this Dept. I have more cause for gratitude than complaint, and I am sure that I entertain that feeling to its fullest extent, both towards yourself. Gen Smith & Charley West. I wish, however, to retain Mr Pope as my special clerk, in whatever position I may be placed in the Trans. Miss. Dept. having confidence in his integrity & ability to fill any such position.

I have still a great deal to do, and my time is fully occupied. The new Treasury Regulations are far from giving satisfaction. I feel regret that I am not the officer charged with carrying them into effect. Whatever popularity I might have acquired under the old Regime, would have been gone in three days under the new dispensation. The cotton Bureau is likely to be more appreciated after its death than during its life.

Would be glad to hear from you at your convenience
Regards to all -

Very sincerely, you

I find a great deal of difficulty in settling up the affairs of that portion you were pleased to confer on me last Sept^r which required me to receipt & account for all cotton brought into this Western District. Since Mr. Nugent left for Soliad I have had no one to attend to these matters. There are a great many receipts due me from officers on the R. & B. and invoices due from me to them. I also owe receipts to officers East of this; and all the above parties are clamorous after me for their papers. Mr. Twitchell says it is impossible for him to attend to these things, having about as much as he can see to in the Foreign Supply office & the other business of the Cotton Bureau.

After I finish up the business of the Permit office I think I shall have to devote my personal attention to these receipts, invoices &c. A confusion has crept into them owing to the carelessness of the officers receipting to me or rather of their clerks (for the officers have, like myself, been kept so busy that they could not give their personal attention at all times to the making up of such papers. It is a matter of the utmost importance to me that all these papers should be made up, and my accounts prepared for a final settlement before I leave this portion of the country. My reputation must be preserved, and nothing must be left unfinished to cause me trouble and annoyance in the future. I do not know how long it will take to do this, for that will depend upon circumstances. I hope, however, that you will see to my having abundant time for the purposes above stated, and not have me separated from my papers until every officer has his receipt or invoice, and mine are also in proper condition for settlement with the P. M. General. I would like also to have at least cl

ical assistance enough to make up the accounts for me.

I find a great deal yet to do in the Permit office. Many of the Permits heretofore ^{issued} by me are being returned by Capt Wells to be canceled, owing to the fact that the exemptions were given in advance of a delivery of the Cotton and the planters refuse now to turn it over, owing to Judge Gray's limit as to the time in which permits may be used. I suppose they will continue to return them to me until the first of May. ~~Many~~ Some of the Eastern Texas Exemptions for which I reserved permits at your request have not yet come to hand; I suppose that they are with the Cotton they were intended to cover, and will be along about the 1st of May, or in time to get clearance before that date.

What I have written, Col. is of course

~~unofficial~~ You can well appreciate the anxiety I feel to leave the Cotton Department with unsullied reputation. That is a thing difficult to do, as the experience of our former officers will testify. Inasmuch, therefore, as I look the responsible position above alluded to at your solicitation, I wish you to see that I have every opportunity of making a satisfactory settlement of it ~~affairs~~. I have given it no personal attention heretofore, and the papers pertaining to it are so much intermingled with those of Mr. Trinchell that it ^{is} ~~is~~ impossible to remove them in case I should be forced to leave here before having them all settled up.

Dr. Sir:

I am in receipt of your kind letter of the 21st ult. I am glad to think that I shall remain in the west, for a great many reasons, and more particularly for the purpose of winding up my papers connected with the Cotton Bureau. Some of the Agents on the Rio Grande differ with me as to the receipts which they should give for the cotton shipped to them, and have sent back three or four sets of them unsigned. I shall have to take the matter in hand myself so soon as I get through with the papers of the Permit Office. Judge Gray has requested me particularly to make him out an abstract of all permits issued by me; their date; quantity permitted in each, and the grounds upon which each permit was based. I have commenced this job, but it will require me at least six weeks or two months more to complete it. as there are some 3500 permits to go into it. The Inspector General wishes me to make out a similar one for him, and, moreover, to ascertain, and attach to it a statement of how much cotton has actually been exported on my permits. Now, if I undertake this job it will require more labor than the other, and I presume it is important that it should be done. After I have finished these papers, I want to take hold of my Cotton Bureau papers, and have them straightened up if I have to go to every port on the Rio Grande to get my receipts.

I have learned accidentally within a day or two past that a petition was sent on to Judge Gray (I know not how long since) by some of the leading citizens of San Antonio, Judge Serine, McQueen & others to have me placed on duty in the Treasury Dept. This petition was gotten up without my knowledge (if it be true that such a one has been sent on at all) but still, if I could get a good place in that department out here, I would not be averse to accepting it after I have completed my papers of the Gerrit Office & Cotton Bureau.

I have some anxiety to send on to Judge Gray the abstract he requires of me, for I hope it will be the means of inducing him to extend the time on at least some of my permits.

With the prospect of having to remain in San Antonio for some time to come, I will make arrangements to procure me a house for the remainder of the year.

Would be glad to hear from you, Col. at any time.

Dear Col:

I have received no letter from you for a long time. Though I have looked for one anxiously every mail. Have you any idea what will be done with me? I wish, if possible, to be allowed to remain on duty somewhere in this Western Country, for a great many reasons and more especially to wind up my affairs in the Cotton Bureau, which for want of clerks, and owing to the great difficulty of settling with cotton agents on the Rio Grande, and at other distant points, are giving me a great deal of trouble. The state of uncertainty as to the future in which I am now placed gives me a great deal of trouble, as I can make no arrangements for the future, as to a home for my family &c. If you could insure me that I should remain in San Antonio for the rest of the year, I can get me a comfortable home here for my family during that time, by a temporary exchange of my house in Marshall for one here.

Can you give me any immediate assurance as to what will be done with me? if so, write without further delay. I am sitting on a court martial here which is likely to last the balance of the year.

My Dear Sir:

I am in receipt of your
favor of 26th ult. I cannot sufficiently express my
gratitude for the kind interest you have taken
in securing a good situation for me. If the
matter can be arranged according to my
letter of the 13th, it will of course be more
acceptable to me. Next to having an honorable
place out in this country, which would
enable me to support myself & family decently,
I would of course like the place shown
of by Mr. Thomas, as a private station in the
Chief Commissary's office. I do not know
what my duties would be, but presume
I could discharge them. Whilst you
are making efforts to get me a place
in the Cotton Department, you might hold
the place in Mr. Thomas' office in reserve
for me. I would make this one request,
Col. viz: that no place be assigned to me
until I am first informed as to its duties
its location, its pay etc., & until I have an

opportunity to say whether it would be acceptable
to me or not. This I know is requesting a good
deal, & I would not do so except in a pri-
vate letter to one whom I now consider one
of the best of my friends. I hope that you will
also secure me sufficient time here to mind up my
present business.

I wrote you a kind letter a few days in reference
to the time when my permit should come & be issued.
The Cotton office is now issuing hundreds of Exemptions &
the parties should have their permit upon them. I
am working every hour of the day & sometimes on Sun-
day to try & keep up with the business, and it is con-
stantly on the increase. By order of Exemptions by your
Bureau I had previous to 1st Feb that are good; but how
is one issued at Houston on 31st Jan, to be made
good, if I cannot give a permit on it the next day?
It seems to me that Judge Gray should amend his instructions so
as to allow permit issued on Exemptions bearing date prior
to 1st Feb ^{to} ~~shall~~ pass out Cotton. No matter what the date of
the Permit.

I am crippled up with Rheumatism, afflicted with Boils from
a myriads family. Besides having a clerk in bed with it.
But we manage to get along. Hope to recover health in
the long, and to get rid of South's bills, which are
pretty heavy in these parts.

Dear Colonel:

I have submitted your proposition for the settlement of Mr. McElanthy's claim to the latter, and he thinks it a very hard bargain. He thinks that your calculations do not proceed upon a correct principle: that the proposition as to what he could make by accepting the terms should not enter into the estimate at all, for what profit he can realize upon any transaction should be creditable to his own skill and labor, and not to the liberality of the one who proposes it. He says the Govt. justly owes him as much money in specie. To the payment of which he honors is bound. To compel him to take property in full payment of the debt, which has a market value of only one half the amount is unjust although by a judicious use of that property he might make a profit. A pound of good D/E is worth only 60 or 70 cts dollars in the market. The Govt may say that it ~~will~~ ^{is} worth more, but such is not the actual value in this market.

He thinks you should either turn over to him enough exempted cotton to pay his debt, or give him enough permits to cover the same at their market value.

Mr McCarthy is willing to pledge himself to import, with
the proceeds of this cotton goods useful to the C. S.,
and sell to them either for cash or on credit, if
they have not the money to pay at the time. This
is to be done of course on condition that the debt
is paid in exempted cotton not in permits.

If the debt is paid in permits, it would seem nothing
more than just that enough should be allowed
to ~~allow~~ buy the debt at their market value.

Would you be willing to make the arrangement
so that the amount of permits received by Mr
McCarthy should, say at 6 or even 6 1/2 ct per lb
pay his claims against the Government?

Please write me by return mail what is the
best you are willing to do, and give directions
as to how & through whom the claims shall be
settled &c.

I am here quite unwell since you left, and
do not feel as well as I might at present. Rheu-

matism & chills are both annoying me. Consequently I have had
no time or opportunity ^{for} studying the new regulations.

What does West think of the matter of which
we were talking? If you have heard of any changes likely
to occur soon in cotton matters let me know. Do the best you
can for McCarthy & you will confer a personal favor
on me.

~~Dear Sir~~ I have been Mr. Pope, private in Co. B. 2d Regt. was ordered by the 1st Command to report some for duty. I directed him to come on immediately, and he took the most expeditious route & the only one from where he was at the time of receiving my letter. He only received transportation so far as the Railroad extended, and was forced to make a sacrifice to get home to pay his fare the balance of the way, as there was no D. R. to give him transportation. He enclosed is an account of his expenses, which Capt. Snow Post D. R. was willing to pay in Confederate money at 40¢ but just before a settlement was made, he brought you some order that prevented his doing it. I presented the safe to Mr. Smith who is willing to pay it provided you will endorse on it your approval. I would like it as a personal favor, if you will approve & return by next mail, as Mr. Pope is too poor to lose the amount, for he came at my special request. I would feel bound to pay him out of my own pocket if you do not allow it. The affidavit will be made so soon as your approval is given. 50 cents is too much to lose in affidavit unless the money can be drawn now. Very truly

of the law

San Antonio Oct. 22. 1884.

St. Col. W. A. Brewster

City of Austin, Texas

Colonel C: I was in hopes that, by this time, I should be able to write you fully my views on the new Regulation, but I have not my time more than was occupied with business this week, besides suffering with the Chills and Rheumatic pains.

I can give you but a few words & indigestible thoughts upon the subject, which please accept as the best I can do under the circumstances. I cannot construe the regulation as you do, for the following among many other reasons.

If it had been the intention ~~not~~ to compel a sale or transfer to the Govt of half the cotton, before acquiring a right to export the other half it would have been so expressed, and not left to a strained construction of the Regulation. Our Confederate authorities, have not usually been so cautious about appropriating private property, as to be afraid to express their object in plain words, nor do they generally leave it to a latitude-varying construction of express powers.

We must construe the different sections of the regulation together. Sec. 12. says that no person shall export cotton until $\frac{1}{2}$ the load shall have been sold for the Govt. Sec. 12. means the owner of the cargo so far as he is concerned that he will return with a load consisting of one half of articles not prohibited by law & the other half of such as the Govt. shall offer for shipment. Sec. 4 requires the shipper to give bond conditioned amongst other things that $\frac{1}{2}$ the net proceeds of the cotton shall be invested in goods not prohibited by law to be brought in within 60 days. The plain meaning of these two sections is that the carrier shall not leave before he has $\frac{1}{2}$ for the Govt, and so that half is of this description it matters not when it is received, or how it was obtained by the Govt.

The shape of the half printed account, is not obliged to be the same who furnishes it.

When the Landing reaches its destination in Liverpool, the connection between the Carrier & Shipper ceases. The latter must in not $\frac{1}{2}$ the pounds of his Cotton in unprohibited goods, & in fact there is 60 days: the other half he can allow to remain in money. The Carrier has now better as to time: he can remain beyond the 60 days but must secure a bond of one-half for the Govt. provided they offer anything for Shipments. This is the course to be pursued, and it can all be done without compelling the Shipper to furnish $\frac{1}{2}$ the bond for the Govt.

Suppose that A.B. a carrier, presents to the collector his declaration in accordance with sec 1. In 20 wagons, & files his bond in accordance with sec. 2. The shipper (C.D) presents also his declaration in accordance with sec. 3. and names A.B. as the carrier. He offers his bond also to insure the proceeds of 50 bales of this cotton in domestic cotton ends &c. It will certainly be the duty of the collector ^{to deliver} the whole 100 bales to be placed in the wagons for use of C.D. But the wagons cannot depart till the other half is laden for the Govt. The collector has nothing to do with getting up that half of the load. If the carrier can secure it from any officer of the Govt. and establish this fact to the collector he must let the whole load go. It may be to the interest of the shipper to give one half his cotton to get out the other half, but if he does not choose to do it & he & the carrier cannot get the Govt half from other quarters, there is no compulsion on him to take out any.

To say that the Govt has no cotton to load the ships
with forms no argument in favor of your position. It
was evidently the calculation of the friends of the Regulation that
the Govt would be able to acquire some by purchase or otherwise
& furnish this part of the load.

If a cotton agent had cotton in his yard, and was
willing to let the carrier take out 100^{lbs} of them, it would not
be for the collector to refuse to let it go & resist with the
shipper's dividing his load with the Govt.

Great injustice might arise in this matter. The Govt
will have some cotton on hand & export, and to take that
cotton out will require the use of the means provided
in these regulations; for the Govt will have no right to import
transformation, or even hire it, when it can be obtained more
legally & cheaper in this way. In any case that the Govt takes
out in this way, some private citizen will be entitled to
take out another. Thus many persons will be able to export
without having one half, whilst others will be denied
to the latter course.

I might further add that if you derive the power to
take one-half the cotton from a construction of the language
of the 12th section, you can as well give the 2nd section
the power to force the shipper of the return cargo
to turn over one-half of that to the C.S. For the carrier
is required to ~~to~~ sec 2. to return with 1/2 his load laden
for the benefit of the Govt. Suppose the agent
should say to the carrier & his freight we
have no goods to load you with unless one-half
of what the shipper proposes to freight you with is
turned over to us. Could the shipper by these means be
compelled to this course? And yet he might as well
as in the case of the out-going cargo.

There is no such section in the regulations for the foreign
yet it would be unfair to establish a right of right
for shippers by sea & shippers by land.

I could use many more arguments to sustain the new
I take if I had time, but the jangling ^{here} ~~language~~ ^{has} ~~been~~ ^{been} sufficient
to convince me, that no person professing the ground
solely by those regulations, could compel the slave
delivering to the C. S. of one half his cotton by one who
never went to think to Mexico. If I had the ap-
pointment of collector I would rigidly enforce the
regulations, and act up to my instructions given
me by the officers above me. If Judge Gray
has the enforcement of these regulations & he were
to ask me to proceed by certain rules, he might
expect me to comply with them literally.
I aimed to show some ~~admirable~~
position in the Cotton Report, but if there is none
to be had will be glad to leave the work in any
other capacity to which I am called.

I am, Sir, very Respectfully,
L. A. H. Willis.

Colonel.

Some time during last Spring at your request I  
receipted to Maj W H Dameron for all the sugar & molasses  
that appeared upon your books as purchased by yourself and  
your agent and paid for by him I represented to Maj  
Dameron and yourself at the time that the amount for which  
you desired me to Receipt would greatly exceed the  
actual amount received at Vickburg. Both of you  
informed me that there was a Considerable quantity of this  
sugar & molasses lost at Berwick Bay and on the Bayou  
Teele. More than sufficient in your opinion to cover the loss  
I then represented to you there would be between the actual  
Receipt at V Burg and the amount for which you desired me  
to Receipt to Maj Dameron. You also informed me that  
you were very anxious to close your papers and that if I  
would Receipt to the Major for the whole amount purchased  
by you and paid for by him that I should have the quantity  
lost at Berwick Bay and on the Bayou Teele placed to my  
Credit. I consented to give my Receipts so as to close out  
the amount charged against you on your books. You  
promised to furnish me all the necessary affidavits and other  
papers to relieve me from all responsibility and further if  
necessary you promised to give me a document signed by  
yourself and the Major which would beyond all question

Believe me from all my heart, I am  
I am very anxious to have the apparently untenable  
Sugar business settled. And you will readily perceive  
that it is of the highest importance to me that I should be  
in possession of all the papers necessary to protect me in the  
case of fear that some unforeseen accident might happen  
to yourself or Maj. Dameron. These times are too uncertain  
I cannot be happy in making such a large investment  
I therefore respectfully request that you forward to me at  
your earliest convenience a box when you meet a safe  
opportunity, all the certificates and affidavits connected with  
the sugar mentioned before in Sugar Molasses and any documents  
which you may deem necessary to relieve me from responsibility  
will be gratefully acknowledged.

I am, Colonel

Propositions to transport  
Cotton from Caddo, Sabine  
& Matotuchos Parishes - and  
adjacent Counties in Texas to  
Orange Texas - on the Sabine  
River.

Houston Sept 12<sup>th</sup> 1863

Col W. A. Broadwell  
Chief of Cotton Bureau

Sir

Having learned that the  
Govt Contemplates removing the Cotton already pur-  
chased and now lying in the Parishes of Adams, Desoto  
and Natchitoches La, as well as some of the border  
Counties of Texas, I beg leave to Submit for your  
consideration the following proposition for the  
transportation of the Said Cotton, Say to the amount  
of not less than two thousand bales (2000) with the privi-  
lege of increasing the number of bales to 6, or 10 000 bales  
Should the facilities to be obtained warrant the undertaking,  
upon the following terms Viz.

I propose to receive  
the Cotton where it now lies on Plantations or in ware-  
houses, I bearing all the expense of transportation to  
Orange Tex, on the Sabine river, excepting such  
transportation as the parties having sold the Cotton  
have agreed to furnish,

I propose to haul the Cotton  
at once to the bank of the Sabine River and store  
the same in Sheds or warehouses sufficient for  
its safe keeping and at proper points for shipment.

Also to commence immediately the construction of  
suitable flat boats for floating the Cotton to  
the point designated as soon as the same can be  
accomplished.

After Said Cotton shall have been  
loaded on the flat boats I will assume the risk of loss  
by sinking until it is landed at Orange.

Provided that  
the Government shall guarantee to me the one half of all  
Cotton so transported, with a permit to export or sell  
the same to or at any point I may choose (Agreeing that  
the Government shall receive by this means not less than  
2000 bales) The Government to furnish Exemptions for  
such Ship carpenters and rivermen from men not now in  
the Army, as I may require to build boats and to

2

Navigate the Same,

Also that the Officer in Charge of your branch Bureau in Louisiana be instructed to improve Sawmills, Lumbermen and materials. Should they be refused me at fair rates to be paid in Confederate notes,

In the event of delay in prosecuting the foregoing plan of transportation by the too near approach of the public enemy, or by the orders of Govt Agents I agree to receive Compensation in proportion to the distance performed <sup>risk</sup> and the expenses incurred. The Govt to Assume all of Fire or Capture by the Enemy during transit and after delivery at Orange.

In 1845 I made a visit to the Sabine River for the purpose of examining it with a view of practicability of Steamboating upon it. but found the Country too sparsely settled to offer sufficient inducements for me to engage in the business, and I returned to Red River where I have been constantly engaged ever since until very recently, I have from time to time received such information from parties familiar with the navigation of the Sabine that I feel fully confident of the feasibility of the undertaking I am proposing and I am willing to risk the necessary outlay of funds and personal attention to perform this Service, also to be responsible for any number of bales of Cotton which may be lost by Casualty navigation.

I will also agree to associate with me not less than three respectable and energetic practical Steamboat men with ample means as Copartners in the Contract, who shall devote their personal Service and attention towards completing the Same.

If the foregoing proposition should meet your approval I desire to Start immediately with competent assistants to make the necessary and final investigations and arrangements for the

work, as the Season for prosecuting the same is now  
at hand and rapidly passing, and I would be pleased  
therefore to have from you such endorsement upon  
this communication, as will justify me in begin-  
-ning the work as soon as the investigations are  
finished without being under the necessity of re-  
-turning here from so remote a region, and  
thus avoid the consequent loss of time. After  
which the Contract may be formally entered  
into and signed by any officer you may  
designate and with such security from  
me and my associates as he may require.

Very Respectfully,  
Your Obedt. Servt  
W. W. Wickham

Office Acty Chief Cotton Bureau  
Galveston, Texas, Aug 21st 1863.

Captain -

In obedience to General Order No 181. I have the honor to make the following report and suggestions -

I proceeded to this place for the purpose of organizing the Cotton Bureau, and find that the following organization will be necessary. I therefore respectfully recommend the same -

First -

That there be appointed a "Chief of Cotton Bureau", a man of age, ability and experience, and well known in the District, who shall have the entire supervision & control of this Bureau, and to be supported by such Officers as he may require and ask for -

First -

For an "Impressing Officer" whose duty it shall be to impress all Cotton -

Second -

By an Officer who shall act as "Chief of the Transportation", whose duty it shall be to furnish all transportation required by this Bureau, whether by purchase, hire or Impressionment -

Third -

By a "Purchasing Officer" whose duty it shall be to make such disposition of the -

108

Head Quarters, Dist. Texas, New Mexico & Arizona,

Cotton as the Chief of the Bureau may direct on its delivery into his hands, for the purchase of supplies, Munitions of War &c, &c.

I want respectfully suggest that the Bureau be organized in this manner, and that efficient Officers be placed in these positions.

As this Bureau is one of the most important in the District, it is necessary that it should be thoroughly organized at first, with an able officer at its head, supported by efficient Officers under him, in order that no complications may arise.

The duties of the Bureau are such as require the attention of the Chief in sections of the country so widely separated, that it would be impossible for him to attend to them unless supported by Deputed Officers for the purposes above mentioned.

Since the closing of the Mississippi River by the enemy, the question has often occurred to me, and frequently been discussed, how the Cotton impressed is to be paid for. After reflection, the following seems to me to be the most feasible plan, a plan which will, I think, satisfy the owners of the Cotton, and have a tendency to increase the value of our currency. I therefore recommend for

109  
Head Quarters, Dist. Texas, New Mexico & Arizona,

your consideration, the following viz -

That the Cotton be paid for in "Bonds," or if they cannot be procured, in "Cotton Certificates" to be redeemed by "Bonds" as soon as they can be obtained. These "Cotton Certificates" to be issued by the Chief of the Bureau.

I am satisfied that even if Bonds could be procured from Richmond, that it would not be advisable to disburse them for this purpose, as it would flood the country with the money, and hence, tend to depreciate the currency. Certified Accounts may be issued, but as they draw no interest I doubt whether they would give the same satisfaction, unless made redeemable in "Bonds" bearing interest from the issue of the account.

Although hardly within the Province of this Bureau, I take the liberty of making the following suggestion. That no exemption from imprisonment be granted till the Government is fully supplied, except in favor of Planters, and then only in sufficient quantities to purchase supplies for the operations of their plantations. This I would urge from the fact that if any other exemptions are made, speculation and others, will, if not openly, at least clandestinely outbid the

109  
Head Quarters, Dist. Texas, New Mexico & Arizona,

Government in transportation prices, if not otherwise, by offering Specie, thus rendering it almost impossible to procure the requisite amount of transportation -

In conclusion I would respectfully recommend that the Bureau be organized at once, in order that so soon as the important orders are received, there may be no delay in commencing operations -

Newport.

The order from your department of 408 bales for Sarah, Simpson was supplied as follows.

- 103 bales at Natchitoches
- 53 " Leecompton Vienna place
- 15 " Prairie Puckhommes
- 50 " Brazzales
- 163 " Leecompton Clintonville
- 24 " St. Canolly.
- 408 "

Of the above Cottons all were shipped on board the Lafourche for acct. of Mr. Simpson except the 24 bales from Canolly which was brought to this place on the Texas 10<sup>th</sup> inst. and delivered to E. Walcott acting for J. T. Belknap in exchange for cotton of Villains.

The cotton of Brazzales was badly damaged and in very bad order. a survey was called and the damages on 40 bales were assessed at 2500 cts for which Mr. Simpson claims indemnity.

The cotton shipped by the Lafourche was received by a Confid. officer placed on board by Lieut. Phil Deuster to see that the cotton corresponded with the permits. I was present & confirm this statement.

Dear Sir,

I have been in this city for two weeks and have heard a great many things in regard to the Cotton Bureau & yourself as chief of same. & having considerable leisure propose to write you. and as to what prompts me to thus take such a liberty with you. you will be better able to judge after you read this. it is my hope that you will appreciate my motives.

I enclose you herewith a Law said to have passed the Senate now in Session at Austin & indeed the report is that it has passed the House by a large majority and only await the signature of the Governor to become a Law.

This Law as it reads is a great indignity to the Cotton Bureau and I understand that it was gotten up.

by our Mr Parady who is very angry  
at the Cotton Bureau because he  
tried several months ago to make  
a trade with the office & could  
not succeed, he is therefore  
not prompted by good feelings  
for the cause of the Trans-Mississippi  
Department, but is prompted  
& actuated by feeling of hate  
to the officers of the C. B. pers-  
onally.

The present Legisl-  
ature now in session is not  
considered the ablest body  
of men that ever got together  
to legislate, all the members  
from the North & east are  
I presume favorable to some  
change in the commerce  
of Texas as they have not  
been benefited by the trade  
in cotton. a great many of  
the members are controlled  
by the various reports and I  
may say slanders upon the  
Cotton Board, & also some  
fabrications in circulation  
against you.

I have traveled over the  
State constantly since the 1st of Sept

last & I have heard a great many  
lies & especially about you.  
by way of illustration, I have heard  
dozens of times, that during your  
action in Sugar transactions in  
La. that you bought Sugar with  
your own means in connection  
with J. P. Payne. & caused Steam  
Boats to carry it to Vicksburg  
pretending to be doing the whole  
for. &c of the Government. but that  
the master of it was for your own  
a/c & that you made a large  
speculation out of it. also  
another transaction in regard  
to salt at Jackson Miss. In which  
transaction they tell it that you  
made another big transaction  
& realized for your own a/c a  
large amount of money.

I had a conversation  
yesterday with an intelligent  
gentleman, who however is  
embittered against you  
He says that some time  
ago an old La planter  
a refugee, who had known  
you for some time and  
who had patronized you

whilst you were in business  
at New Orleans. & in consid-  
erations of this you had  
favoured him by giving  
him a permit to carry  
out free of any charge  
whatever two hundred  
baled cotton. Now this  
same man has doubtless  
told this story to a large  
number of men and  
people generally and very  
much disposed to believe  
such reports. no matter  
how very ridiculous they  
seem to be. after some  
further conversation with  
him I found he had made  
propositions to you for a trade  
& you had refused his  
propositions

9/13/33

Now lead you are aware that no  
man can hold any public  
office ~~without~~ without making  
enemies. consequently it would  
not be policy for you to notice  
in any manner. Such standing  
I find that the generally of the  
communities the most intelligent  
& those not interested never fail  
to give you only justice in  
saying that you have done  
remarkably well in discharging  
all the duties that the Government  
has put upon you. & that Genl  
Smith exercised good judgment  
in putting you at the head of  
a department so important  
to the Army & Dept. as the  
Cotton interest. Col Butcher  
is spoken of in the same manner  
by the same class of citizens  
but at the same time I have  
heard serious charges made  
against him, I feel satisfied  
that the Government has and  
will realize more benefits  
from cotton administered by

the present arrangement  
than any other & altho the Legislature  
I believe if they have not passed  
the Law they will do it. & I further  
believe that you will finally  
prevail over all opposition  
the action of the Legislature  
notwithstanding

I feel satisfied from what  
you told me ~~that~~ in Humphreys  
about the 1<sup>st</sup> April. that your  
feeling for the Governor and  
not of the most pleasant  
character. I have a better  
opinion of him than you. I  
know him personally I know  
him well. & I feel sure that  
he has no Superior in Tex as  
in point of intelligence. not only  
politically but commercially  
& he knows full well that if  
the Cotton is allowed to pass out  
of the country. & parties taking  
it over not compelled to stand  
with supplies for the Government  
that the military can not be  
sustained. & he also knows that the  
Government has no other resource  
to get foreign supplies only with

Cotton. & I think the Governor will  
Veto the bill. But even if ~~they~~ he  
vetoes it is my impression  
that it will be passed by a  
2/3 vote in both houses.

Now if the law passes & really  
becomes a law by the signature  
of the Governor or otherwise  
it will interfere directly with  
the policy of the Cotton Bureau  
& then the question arises. what  
remedy is there for it.

Has not General Smith the  
Legal right to impress all  
the Cotton of the Trans Miss Dept  
as a military necessity, & is it  
not absolutely necessary that  
the Government should take care  
of the Cotton & not allow it to be  
sold only for supplies for the military  
the Cotton is going out of the  
country very rapidly & soon  
the staple will be scarce &  
none is being raised.

If this can not be done then the  
next thing to do is. & I suppose that  
Genl Smith has the <sup>Legal</sup> right to do  
it he certainly has the power  
& the right to do it. for it is very

<sup>certain</sup> that the Army must be supplied  
with certain articles that can only  
be had for cotton or Specie. —  
& that is to put a tax of 8¢ per  
pound upon all cotton passing  
out, If there is no law for this  
last proposition, a law can  
soon be made as the Congress  
is now in session. 8¢ duty would  
not be oppressive upon the planter  
for the reason that cotton would  
be worth still in this city 10¢ &  
11¢ Specie. & four years  
ago. the planters hauled their  
cotton to Houston & sold for  
8¢ to 9¢ consequently they are  
doing better now than they did  
then. I am satisfied that with  
the late victories in S. & A. that  
any proclamation coming  
from Gen. Smith will be obeyed  
by the people, as the people have  
confidence in him & will give  
him any thing he asks for

Instructions to James Sirely  
in regard to the Cotton of Dr  
Perkins -

Houston, 20<sup>th</sup> Octob 1863

Deare. Genl. Bay,  
Dear Sir,

You are requested, to receive from Dr Perkins his orders in favor of the Cotton Bureau, for about sixty hundred bales of cotton, which you will please place in the hands of a Competent & trusty person with directions to take possession of the Cotton, & turn it over to Major Chas Russell, at Brownsville. Taking proper vouchers & requesting him to pay any expenses accruing, I have requested Major Andrew McKee, to turn over to Dr Perkins a like number of bales in L<sup>a</sup>, and he will expect to hear from you the exact quantity obtained by the Govt on these orders,

Should the arrangement not be approved by the Dept. Commandr, it can be cancelled by a return to Dr Perkins of the Cotton received from him.

Your attention will add. to the many obligations under which you have placed me personally not only by frequent Courtesy & acts of kindness, but the deep interest manifested in the welfare of the Country. the patriotic & self-sacrificing spirit shown in your willingness to become associated with the

Cotton Bureau, regardless of any consideration  
except the good of the Country, and  
personal prospects, which have detained  
others. I am candid, & more tender footed  
than yourself. I am frank to  
confess that the suggestions offered by  
you would have been in almost every instance  
adopted by me, and that the information  
you have freely afforded, is more valuable  
than that obtained through other channels,  
I still relinquish with great reluctance  
the prospect of retaining an enlightened  
mercantile, like yourself, whether or not  
my connection, is continued, I am fully  
satisfied that under the arrangement  
proposed, you expected the greater  
portion of the work to be thrown upon  
you & that you had made up your mind  
to carry it through in the face of all  
obstacles, I still hope that the Lord  
will contribute & secure you invaluable  
services, I cannot express how, in-  
tensely rejoiced I have been by inducements  
on the part of others & the delicate attitude  
in which I have been placed, but I hope some  
day to recover fully my reputation as a  
gentleman & to have the pleasure of renewing  
the personal acquaintance,

Yours truly

I had the pleasure more than  
a month ago - urging the importance of locating  
troops on the Western frontier. to keep open the route  
into Mexico by way of Eagle Pass. We have informa-  
tion that a Federal Expedition has left Brownsville  
for "Roma". As the operations of this office will  
be to some extent governed by the protection of  
its business on the Rio Grande, we should be  
pleased to know if any action in the matter is  
contemplated by the Military Authorities. Unless we  
can guarantee to Mexican transportation some  
protection from molestation to which they are now  
liable, the business of this office will be measurably  
restricted - & large quantities of cotton will be sent  
direct to the Yankees & crossed into Mexico without  
reference to our records

Cotton of Dr Perkins

Mr. James, Jr.

Houston 26<sup>th</sup> Nov 1863

Dr. Perkins who placed some cotton orders  
in your hands has been informed that the  
transaction made with me, is cancelled, he  
desires that the Cotton shall be used  
by the Texas Bureau, and a receipt fur-  
nished my. Am. Mch. for 400 Bales.  
Which is valued at \$200 per Bale. and  
will thereby extinguish the obligation  
of my Mch. for eighty thousand dollars.  
My Mch. proposes to attach the  
receipt of the Texas Bureau to the original  
voucher of Perkins & Co. to constitute the  
voucher for the property. This explanation  
is necessary in order to enhance the value  
of the property delivered in Texas.  
in lieu of Cotton sold in Louisiana,  
the Cotton you get out of the Perkins order over  
and above 400 Bales. can be determined to be Perkins  
or a like number of bales delivered in lieu of it.

Sir - L<sup>d</sup> Encl. forth. directs the  
transaction made with <sup>you</sup> for the exchange of  
cotton cancelled. The orders for cotton  
given by you to such an extent as they  
have not been appropriated, will be returned  
you. by Mr. Lee only, upon your receipt,  
or cancellation of his <sup>receipt</sup> given you at the time.  
These orders (which I understand call for  
300 Bales,) you can turn over to Mr. McKee  
to pay the cash you wish to settle with  
him, the order you gave on Rock Island  
will not be cash, as soon as it comes back  
it will be returned to you, as also the  
order on "reunion", any cotton which Dr  
Howard forth may get possession of  
will be reported to me for <sup>your</sup> order to return  
to return you a like number of bales  
through the Texas Bureau, my object is  
as you will see by the turn of this letter

Alexander

My dear Sir,

I arrived  
yesterday from San Antonio  
after a tedious trip and  
much delay in returning  
in consequence of high  
water, bad roads &c.

I am in receipt of  
your several favors of  
14<sup>th</sup>, 18<sup>th</sup>, 20<sup>th</sup> & 25<sup>th</sup> Ultimo  
Contents of all carefully  
noted.

Col Thos Martin went  
to Richmond for money, &  
I hope will bring a good  
lot, unless the Secty of the  
Treas<sup>r</sup> concludes that he  
would like to see some  
of our Monthly Returns

are forwarding more. —  
This Dept. is informed  
of funds, enroute long  
enough to have reached  
here twice.

It is all right —  
about the \$10,000 which  
you might have made  
\$3,000 as needed — in  
your previous letter  
you only mentioned  
that you thought of  
buying an interest  
in the 'Duke' to cost  
25,000. You need not  
at present discourage  
yourself in any way  
about it — we can  
manage it in some  
way.

As we are getting  
scarce of money you  
had on that ground

get even with May  
Lasere as soon as  
possible.

Bonds are largely  
in demand here at  
par & in some instances,  
one per cent premium.

When Lasere pays  
you, the same funds  
can be used to buy  
with, and if Genl  
Bailey wishes to exchange  
\$10,000. of his bonds for  
notes do so.

There is no objection  
to purchase his or your  
brother's Cotton, and if  
you can pick up  
enough to pay all expenses  
in this wise it is all right.

I would not advise  
any alliance, however with  
Genl B. - - More anon -

buy all the Cotton you can - going up quietly  
I am 4 all ready  
to start for Alex<sup>dr</sup>  
but cannot get a  
vehicle from Orange  
to Mott's Shiff 15 miles  
water - in consequence  
of the steamer which  
connects being broke  
down as soon as the  
is ready say a week  
I will start - the  
mail is carried by shiff  
you did right about  
the Tobacco - which  
however you need not  
hurry off until the roads  
mend. - Truly yours  
A. W. McKee

Sir

In reply to yours of the 5<sup>th</sup> inst.  
I can inform you that there was left here  
from Oct 18/63 to Feb. 20/64 Two Hundred & Eight  
bales Gov. Cotton Map. A. W. Miller as chf. Agt.  
of Cotton Bureau claimed control of it and in-  
structed me to deliver it to Capt. Whittinburg  
or any of his agents. The cotton was not called  
for and is still here, with the exception of a few  
bales that was taken without my knowledge  
by some soldiers men. I removed two bales and  
I am under the impression that there is not  
more than three or four missing. The cotton  
was in bad order when received.

Capt. Whittinburg's agent left a flat boat  
in my care which was promised to be taken  
by the first run in the river. It commenced  
leaking so much that I found it impossible  
to keep it afloat. Something should be done  
with it.

Respectfully

Dr Sir

To facilitate the removal of Gort Cotton from the exposed Parishes of this State to Niblett's Bluff on the Sabine River it is necessary that I should have at as early a day possible an Order from these Headquarters to the effect that parties who will transport Gort Cotton as above, shall receive a proper permit to export unmolested the amount - which is allowed them in lieu of Freight-Money.

I respectfully the enclosed draft of an Order in which the Parishes are named from which I am of the opinion the above privilege should be granted.

I am in treaty with quite a number of Planters who are only awaiting this Order to begin operations - Among them today is Mr Geo. C. Wadill for himself and several others in the neighborhood of the Washita River.

To avoid confusion and annoyance to the Commanding General, I suggest if it would not be best, that the granting of these exemptions should be entrusted to yourself, or under your Bureau, upon the party producing the Receipt or Certificate of the amount of Cotton delivered to

May B. Bloomfield Ch. 2<sup>nd</sup> Dept Texas or his  
Authorized Agent at Tibbets Bluff, or in any  
event not to be given at any more remote  
point than the Hd Qrs of Maj Genl Taylor.  
As during low water especially, this point  
is too far distant for the great majority of  
the Planters to apply for their permit, for  
comparatively very small lots of Cotton,  
and which they properly would expect  
to receive, at least convenient to the office  
at which they make all other arrangements  
~~as usual~~, and where a register is kept  
of their names and amounts of Cotton  
delivered to each.

Respectfully

Your obt. Servant

P.S.

I understand that it was from their headquarters  
that Genl P. Herbert received his orders to

it corrected here?

Notice to Parties having in charge  
C. S. Cotton

Whereas, it has come to my knowledge that certain parties holding Certificates, bearing interest, (duly authorized by the Hon. Secty. of the Treasury), in consideration for cotton sold by myself, or Sub Agents, for account of the Confederate States, have been offering their Cotton again for sale, I hereby give notice to all disloyal parties disposed to do so, that they and the purchasers of same, will alike, be arrested in the most summary manner by Military law and dealt with accordingly.

Due notice will be given (it is hoped at an early day) when the funds and Bonds arrive, to take up the interest bearing Certificates, given as above, by my Sub Agents.

I write you a few lines by Mr Elder. The wagon & team arrived last week and brought ten pounds nails only I wish you to send me a box of beef as the beef here is so poor that it is not fit to kill Mr Elder will haul it out for me in case you send & I will pay the transportation I also want 25 pounds nails more as the skids are so heavy that we are obliged to brace them in order to keep them from falling & we cant use pins to any advantage at such work. We are getting on finely coming & by the last of next week will have near all covered. Hope you will be able to send me the beef & nails as it will be a great accommodation. In regard to the Cooks you ought to send two at least & a large quantity of things at the earliest time possible. The head of the boat was 25 miles above coming down yesterday. I would urge the importance of having the cotton that is loose here stored at the earliest time possible. It is accumulating rapidly as the compressing is going on & thus require a great many bales for want of bagging & rope. If possible it would be much better if it could be re-packed immediately. Write to me and let me know whether you anticipate rebaling it soon or not as we will be ready to go to re-packing in ten days if you desire it and can furnish us with the material. We are getting on finely covering & will get near through in 6 or 8 days. I am Capt very respectfully

Major

In answer to your inquiries of this morning, with reference to information required by Lt Col Broadwell, I have the honor to state that a copy of my report in relation to operations in the Clothing Bureau has been submitted to him, and contains all the information that I can, at this moment, furnish. As respects disposal of Cotton on the plantations I deem it practicable to make arrangements with parties, representing foreign houses, to furnish supplies, based upon payment in Cotton deliverable upon the plantations.

While I was at Houston Mr. Samuel Simpson, representing an English firm, who can be addressed, Care of James Torley, Houston, or J. San Roman, San Antonio, made proposals to me to furnish supplies upon these terms.

I will at the earliest moment, practicable,  
deliver to Col. Broadwell the estimate  
he requires.

With great respect

I suggest that if no better terms  
can be made with Mr. John Chiles, that  
you make a deduction on the price we  
are to charge for the Cotton. The Cotton  
being exposed, it would be far better for us  
even to receive any amount than allow  
it to fall in the enemies hands and be  
lost altogether. The foreign flag, I infer,  
would protect the Cotton if owned by  
foreign Merchants. The Clothing is of  
such absolute importance to our army  
that I hope you will employ all means  
in your power to secure it. The Lt.  
Giles Comdg will give any assurance that  
the Cotton shall be transported out of  
the river without interference on our  
part. The enemy, I am sure, would  
not interfere with the rights of foreign  
Subjects, especially as the transaction  
on the river would appear to be entirely for their  
benefit. The boats would, of course, come  
into our waters empty and return laden

with Cotton

If need be, could we not with propriety insure one or two small boats against destruction by the Casualties of war so as to give entire Confidence to the Contractors? I beg of you to offer them every inducement, that you can devise, to deliver to us, at Brownsville, the goods, and receive payment in the Red or Cuchita River as you may select.

Very Respectfully

I am directed, by the St Louis  
County to refer to you the enclosed Con-  
tract with Mr John Chiles of St  
Louis Mo. I am advised by Mr Chiles  
under date of July 28<sup>th</sup> from New York  
of ample arrangements being made with  
European Merchants to comply with  
the terms of a agreement. In view of  
the great labor of transporting the Cotton  
to the Rio Grande, and the delay  
that must necessarily follow, the  
St Louis County directs that I refer  
the matter to you, requesting that as  
much Cotton be paid, at the time of  
delivery of the articles, as you can  
control for that purpose, and that  
you negotiate with the parties to receive  
the balance due them in Cotton, either  
on the Red or Archa River, pledging  
all assistance at our Command, while  
they may be employed in transporting  
the Cotton to New Orleans or elsewhere

for reshipment to Europe. The Contractors are to have free and unmolested transit with their boats while removing the Cotton to the point of reshipment.

The benefit to arise from such an arrangement would be equally advantageous to our government and the Contractors. The advantage to the Contractors will be in the lessened freight and rate of insurance on the Cotton to Europe.

But all this is well known to you.

Trusting you may succeed in procuring the stores so much needed

I am with great respect

Rymes Major and Quarter Master in the service of the Provisional Army of the Confederate States of America for and on behalf of the Government of the Confederate States of America, and the said John Chiles, his heirs, executors and administrators have consented and agreed and by these presents do mutually covenant and agree to and with each other as follows, to wit:

First That the said John Chiles, his executors and administrators shall deliver or cause to be delivered on or before the first day of November, One Thousand Eight Hundred and Sixty Three, at the city of Brownsville, County of Cameron and State of Texas, to said Wm. H. Rymes, Major and Quarter Master or to such other officer as may be directed by the Lieutenant General Commanding Department Texas Mississippi to receive the same. - Thirty thousand Caps. - Thirty thousand Sackets. - Thirty thousand pairs of Pants. - Thirty thousand Shirts. - Sixty thousand pairs of Drawers. - Thirty thousand pairs of Shoes. - Sixty thousand pairs of Socks. - Thirty thousand Great Coats. - Thirty thousand Blankets. -  
made

made in the manner and of the material as herein proposed and described and Four Thousand yards very fine Cadet Grey Cloth, double width. - Four Thousand yards light blue French Cloth and Four Thousand yards dark blue French Cloth, double width. -

Second. It is understood and agreed, that all the articles stipulated to be furnished and delivered under this contract, shall be of good quality, and free from any damage ~~whenever~~ ~~well packed in very strong iron bound Cases.~~

Third. - That the said Major Wm. H. Hayes, Quarter Master, or such other officer as may be directed by the Lieutenant General Commanding Department, to receive the same, shall receive of the said John Chiles, his heirs, executors and administrators or from any agent whom he shall appoint to deliver the same, all or any portion of the articles which may be furnished by virtue of this contract, and pay to the said John Chiles, his heirs, executors, administrators or agent who may deliver the articles, for every Cap, complete, Two Dollars and fifty cents. - for every Jacket, Eight Dollars, - for every pair of Pants, five Dollars and fifty cents, - for every Shirt Three Dollars. - for every pair of Drawers Three Dollars for every pair of Socks, fifty cents. - for every Great Coat Twenty Dollars, - for every Blanket Five Dollars. - for every yard of very fine Cadet grey cloth, double width, Six Dollars, for every yard of very fine light blue French cloth, double width, Six Dollars and for every yard of good dark blue French Cloth, double width, Six Dollars, and for every pair of Shoes, four Dollars; -

Fourth. - It is clearly understood and agreed, that payment for all goods delivered under this contract by said John Chiles, his executors, administrators, or duly appointed agent or agents, is to be made with Cotton of an average quality of "Middling fair", at the rate of twenty cents per pound, the Cotton to be in merchantable condition and is to be received by said John Chiles, his heirs, executors, administrators or agents, at the same time and place of delivery of the articles under this contract and it is further agreed, that said John Chiles his heirs &c. or agent, shall be permitted to export to any place in Mexico all Cotton thus received. -

Fifth. - It is further understood and agreed that any articles, delivered by virtue of this contract, on or before the first day of November next, shall be received by the said Wm. H. Hayes, Quarter Master, or the officer directed by the Lieutenant General Commanding Department Texas, Mississippi, to receive the same, at the city of Grovesville, County of Cameron, State of Texas, and payment made for any article thus received under this contract upon the terms and rates herein before mentioned. -

Sixth. - It is understood, that the Certificate or receipt of the officer or agent of the Government shall be a sufficient voucher of the number and quality of the articles delivered under this contract, and in accordance with such certificate or receipt, payment is to be made to the said John Chiles or his agent &c. in the manner and at the time herein stipulated. -

Seventh. - It is understood, that no member  
of.

of Congress, shall be admitted to any share or benefit, to arise from this contract. —

Eighth. — Should any difficulty arise respecting the quality of the articles, stipulated to be delivered under this contract, or the quality or condition of the Cotton used in payment therefor, then the officers directed by the Lieutenant General Commanding Department to receive the articles and make payment, for the same, is to appoint a disinterested person, to meet one of the same description, to be appointed by the contractor or the party or parties acting for him, these two, thus appointed shall have power to adjust the difficulty, but should they disagree, then a third person is to be chosen, by the two already appointed, the whole to act under oath, and the opinion of the majority to be final in the case. —

Ninth. — It is further agreed and understood, that the articles stipulated to be furnished under this contract, may be received at the option of the Lieut Genl Commanding Department Texas Mississippi, at such a point or points, as he may designate that may be as easy of access to Merchant vessels from Europe, as the port of New Orleans, County of Cameron, State of Texas, provided the General Commanding select the point or points previous to unloading of the articles from the transports, at the mouth of the Rio Grande River, and notice being given to said John White and those acting for him, of the place selected, it is so agreed, that payment is to be made at the same time and place, of the delivery of the articles under this contract and upon the conditions herein before mentioned. —  
In witness hereof we hereunto set our hands

and seals, this the 10<sup>th</sup> day of June A.D. 1863,  
having signed quadruplicate hereof -

Mr. A. I. Ward of Little Rock Ark. has entered into contract with the Govt. through this Office to import Machinery and work it for Govt. account.

By the terms of the agreement approved by Lt. Genl Smith, the Contractor is permitted to export through Mexico or the Gulf ports, at Contractor's option, nine hundred bales Cotton. Mr. Ward has given bond in the sum of One hundred & seventy thousand Dollars, to faithfully comply with the terms of his agreement.

I Trust that you will lend Mr. Ward your aid in furthering his purposes, if, while on the Rio Grande, he should require it. I have every confidence in his ability to comply

with his obligations.

Capt Your favor of 25<sup>th</sup> is just to  
hand & contents noticed In regard to the Cotton  
being in bad order I can assure you that it  
is not by improper handling or culling that  
such a quantity is in the condition that it  
is. It is owing to the ropes being in such  
bad order that they have not sufficient strength  
to hold the bales in their present state to say nothing  
of the additional strain in them after the cotton  
is compressed. It is very reasonable that the ropes  
should be rotten when you take into consideration  
the length of time most of the cotton has been

Colonel,

Three applications have recently been made to purchase Emory Cottons near the Emory Lines at \$100 + one hundred dollars per Bale - in Gold - or its equivalent, for export to Europe. One party has offered \$120 per Bale in approved Sterling Exchange. If Sales of this kind are effected the Cotton must find export by way of New Orleans at which point it is estimated now. Shipments of ready to the Liverpool market with 48-70 in good - a strong inducement is furnished me to make these Sales in order to liquidate the indebtedness of the Govt due in Gold or Cotton, and make further purchases of Army Stores, but... if the acquisition of Cotton on the above terms results in profit to the purchaser, I would prefer that such benefit should go direct to the creditor who has been compelled to wait, or the vendor who contributes to the supply of our troops, as such an arrangement would not only facilitate the acquisition of supplies but better justify my action in permitting the Cotton to pass out through an Emory point, if applied to the settlement of creatured obligations, & used to provide necessary munitions, than if sold direct for Gold or Exchange, you will therefore forward to the R. Branch &

mexico, and take up any such  
debts of the Govt, by drafting  
upon the Cotton, .. and also pay  
with any purchases of supplies  
which you may draw on for the  
interest of the Govt to reach or  
which may be made by purchasing  
articles of the other Dept.

You are requested to see Col Whittier  
& ascertain his plans for procuring  
supplies, & reporting Cotton by  
way of Cash Paid the same to  
be sold to meet our necessities  
or shipped to foreign markets  
where its value can be obtained.

It would be well also to look an  
interview with His Excellency for  
Memphis, & if possible arrange to  
avoid conflict in the purchase of  
Cotton in Texas.

The importance of securing large  
quantity of army stores on the  
best terms obtainable by a judi-  
cious use of the Cotton in  
question is urged upon you,  
- when parties appear here with  
your drafts for Cotton they will  
be furnished an exception given  
its impoundment & destruction promptly  
placed in possession of the Cotton  
& permitted to export it by way

A Cotton Bureau <sup>for the Government</sup> has been ~~organized~~ <sup>established</sup> under

and will be sustained at Dept. H. & G.

All officers & agents <sup>engaged in the purchase or removal of cotton</sup> will report their  
operations to the Cotton Bureau in Houston.  
and be governed by instructions from it.

Cotton is liable to impressment under the law,  
and whilst it is believed that such action will be unnecessary  
with patriotic planters, it is announced that in view  
of our necessities, ~~this can~~ that all cotton which officers  
to learn Texas, will unless exempted by the Cotton Bureau,

~~No contract will hereafter be made unless approved~~  
by the Cotton Bureau, The decision of its Chief  
will be final,  
military authority throughout this Dept. will

The suggestions of Major Emil Magruder in regard  
to the revision of contracts, and ratification or cancellation  
of permits, will be acted upon, by such orders as he  
will issue, and may hereafter be issued from this H. & G.

The Cotton Bureau is governed by no  
Special law, it is completely ignored among  
the rules laid down among every regulations.  
For the guidance of affairs, in order to be  
efficient it must rest upon something,  
in the absence of any law or charter,  
it is suggested that its fundamental principles,  
be defined by the issue of an order from  
Sept 1st 90, which shall indicate the  
power vested in the Chief of the Bureau  
the functions he is expected to perform.

The enclosed memorandum is respectfully submitted  
for the consideration of the Sept Committee,  
I would not further trespass upon his  
time, with this much even subject, if it were  
possible for me to get Mayor Ryan to act directly  
on the spot, but he is unwilling to assume  
any responsibility whatever, he realizes  
forcibly that he has the confidence of the  
people, and so he will commit himself to  
nothing, which might by any possibility cause  
him to lose it, in this respect Mayor Ryan  
himself are diametrically opposite, I think  
and order from the Cotton Bureau, should constitute  
the law of the whole Cotton land,

many opportunities of doing great good have  
already been lost, the public mind is kept  
in suspense the credit of the country suffers  
supplies are not secured, I beg once more  
for the last time to call the attention of the  
people to this subject, & to request such consideration  
& action as its importance demands.

Shrewsbury 12<sup>th</sup> Novemb 1864

Hon. S. W. May.

Dear Sir.

Capt. Black has gone to "mound".  
The memorandums you handed me will be submitted to him with my views as requested by you.

Encl. Smith is absent. It is intimated to me at Hdqrs. that I will be ordered immediately to Richmond.

I may be prevented from paying you the contemplated visit, although it would have afforded me pleasure to render you any assistance in my power.

In view of the probability of neither seeing or communicating with you again, I, by permission to make an appeal in behalf of my creditors, this is done with some apprehension of your present & future difficulties, but no alternative is left me.

Encl. order 2684 issued in advance of my return, has stopped the purchase of cotton, all officers and agents of acting under my orders are directed to report to you. My argument has been broken up, and its efficiency destroyed.

This order was issued 27<sup>th</sup> of October - two weeks prior to my return, and before I was called upon to show the effect of a change so sudden & radical. In fact I have not yet been called upon to report the effect of such action. Letters on the subject have been voluntarily written, which apparently had no effect; no replies to them have been received. ~~but~~ and the inference is obvious that my letters were either overlooked or but served to disatisfy Hdqrs with me.

I should be sorry to incur the displeasure of the Genl, my object in writing him plainly.

2

was simply to gain, two or three months to carry out plans inaugurated by his sanction, and under his authority,

I believed that some of the odium for failure to pay, would rest upon him, as well as myself,

very best exertions have been employed to relieve him of this. If individually, my acts deserve condemnation, Earl Smith should not be prevented from doing what he promises, when thereby the French credit would be preserved. In justice to himself nothing should

influence him to occupy the position of a man who promises one thing in order to obtain an advantage (which otherwise to be gained), and then repudiate his promise, at a time when the victim, who depended upon his promise and placed himself in his hands has no remedy. From which I can see

the Cotton Business had ceased to exist at Sept. 1st, 1862, some time in October, and the troubles of myself and those who have assisted me in performing a laborious & thankless duty, give no remedies there;

our papers are referred from the Sept. 1st to you, by order of Earl Smith,

I hope therefore you will not consider this letter unwarranted. I hope to find time to submit the precise condition of my business.

The receipt of Capt Wells to 1<sup>st</sup> of Nov. shows the negotiation by purchase of 12,107 Bales of Cotton at a cost of (paid in adv. since the 1<sup>st</sup> of July) \$519,012.17

of Mexico. would more than pay any debt  
due on the Rio Grande not otherwise provided  
for, and the balance would be more than  
sufficient to pay the Houston indebtedness and  
keep up the necessary purchases until 1<sup>st</sup> of July.

Capt J. C. Swetlocks reports shows 7206  
bales of Cotton received at San Antonio for  
the 9<sup>th</sup> ending 31<sup>st</sup> of October.

The Texas Agency shows the balance 27.00

it could certainly be paid with our Alf.

the Cotton of reports purchased by Capt  
Mills as above. say 7362 Bales.

The balance of indebtedness of my Refuel and  
Levi Hestons may thank. assumed by me can  
be paid with 4000 bales of Cotton for which  
I have made ample arrangements to place at once  
by the 1<sup>st</sup> of July. had not my transportation  
arrangements been broken up. It is proper  
to add that of the 14,724 bales engaged as  
above we cannot take a single bale - the  
without violating our order No 84,  
and we might be unable now to regain it  
if the provisions of said order are not enforced.

It may be practicable by use of the Pulaski cotton  
cottons with those in the stocks of Leath Smith  
& Ruge, in northern Texas to collect 8000 bales  
and this quantity alone may pay the debts  
of the Rep. and give you an open field  
to commence new operations. but very thing  
has appeared so precarious of late that  
I am not sanguine of my ability to push  
forward these cottons within reasonable time.  
and should there be balances due. what  
~~certainly is there, they will be promptly~~  
paid by you, &c.

A glance at this exhibit I think will <sup>convince</sup> you  
that, had we been left alone for 3 months, my  
business would have been surrendered to you <sup>in</sup>  
for different condition - not only would it  
have been completely unembarrassed. but I believe  
you would have had the control of one <sup>und</sup>  
one half to two millions of dollars. as the  
proceeds of cotton en route to foreign markets.  
to employ as capital in new business of for  
the purchase of military stores.

~~However perhaps the future may be through~~  
the administration to come. But Smith should know  
that you cannot control push transactions.

Without appearing to realize that he will be  
compelled still to have something to do with cotton  
business. he turns in one instant to you as the  
great head of Government cotton matters -  
and my affairs sink below the surface. and its  
affairs are scattered to the four winds.

But further our case of Justice should have  
compelled in continuation of the Bureau until its honorable  
obligations were provided for. but it appears to be  
overboard. and no provision has been made for its debts.

Letter to Mr. W. H. Thomas  
referring to the transportation  
of Salt. Sugar Kettle &c  
from the Snake Country.

Washington 18th July 1863

Maj. W. H. Thomas

Major -

I have the honor to acknowledge your favor of the 26<sup>th</sup> & 29<sup>th</sup> ulto

I have made arrangements to get 50 - (and if necessary 100) Sugar Skettles - from the vicinity of Bonaville Bay & the Ochee - and as the Steam Boats now in that vicinity must either be sent up Red River or destroyed to prevent their capture - I hope to send you a good supply - If the receding navigation should compel the Federal Gunboats to retreat the Mips River in advance of the occupation of this section - I shall insist upon three Steamboats (of which there are 5) being sent up Red River loaded with salt & Skettles - and the work continued as long as circumstances will justify - The fall of Vicksburg & Port Hudson - will necessitate the evacuation of Louisiana (nothing very favorable than expected occur) -

I do not believe that the enemy will occupy the territory immediately - and hope that Genl. Taylor will be able to defend this section until many things in it valuable to us can be withdrawn - The raid of Genl. Banks deprived the planters of transportation & rendered their country barren in other respects. but if Genl. Taylor thinks it prudent to unload his army waggons west of the mountains - they might be used for other work in hauling off much that will be useful to us - which, left in the country, will constitute

an element of strength in the hands of the  
Yankees - I hope Genl Smith will order  
all the cotton likely to reach them - burned  
- It is too late now to count the cost, or  
consult the Planters - Our connection  
with the General Plant is cut off - and  
prompt steps must be taken to maintain  
the military organization - The execution  
of the Tax Law will remove many difficulties,  
but will not obviate the necessity of adopting  
some system of finance - If I were afforded  
the pleasure of an interview with you, I  
should be inclined to discuss at length  
some matters of observation which have occurred  
to me - as Genl. Taylor is very much  
engaged and I have annoyed him so much  
recently - that I feel a delicacy in trou-  
bling upon his valuable time,

Respectfully

November 7. 1863

To W. H. D. - Your valued favor of the 15th Sept  
was received several days since. It affords us much  
pleasure to learn of the good health of all our friends.  
I have sent the letter to my sisters, who are all three  
now in Pa. at their father's ~~home~~ home. Father  
has not enjoyed as good health the past summer as usual.  
The last letter from him of recent date said he was little  
better than for some weeks previous - three sisters were  
well, the three children of my oldest sister also  
very well, her youngest was born in July last. her  
husband the Judge was in <sup>place where Mr. M. B. did business</sup> Pa. very well practicing  
his profession without the usual molestation. The  
husband of my next to the oldest Maria - is  
here with me. I directed your letter to be forwarded  
to Uncle Moses who is in Pa. (north of his own place).  
I have written to your wife in - telling her of the  
contents of your letter, and assuring her that my  
Uncles wishes & the husbands requests should all be  
carried out as far as it may be possible to do so.  
My own services and efforts are devoted exclusively  
to one purpose and I beg to assure you that while  
I am able to raise a shilling, the relations of your  
life and all my uncle's friends shall have their proportion, but  
I am specially gratified to say that Mr. Walter has written to me  
saying all is well enough at present with your family, they have  
the comforts of life so far as it is possible in these times to have them. Mr. Conner  
states, I beg you will remember me most affectionately. Tell my  
Uncle relations, say to them we love them dearly and are

greatly joyed to know of their welfare. It was my purpose  
to visit your family but certain restrictions on Commerce  
in that direction has caused me to defer the pleasure  
I send by the bearer of this letter a Trunk containing  
several articles which may be distributed at the discretion  
of M A B or his son, a brother. If the articles should  
give of any comfort or rather the donor will be more  
than gratified. I have been thinking of visiting the  
plantations & residences of those who are not in reach, with  
the view of taking some supervision over what may remain  
but the difficulties of obtaining any control would be great  
& I fear productive of no good, however I contemplate  
something of the kind. If you have any suggestions in  
this regard please make it in your next letter. Do you think  
I could do any good. Much suffering & destruction has  
been experienced where I have been. Some changes  
may occur soon, which will make it in my power  
to see you. I direct this to Meridian the place  
where you dated your letter. I would like to know the  
address of Wm & his Brother. They do not write  
I would be glad they could as often as practicable. We do  
not differ with you much in sentiment although  
you may look upon our action as very strange  
Sooner or later facts will be developed which will  
make you all satisfied - my best wishes to all -

Very Truly & Sincerely  
Brother of J. L. +

Respy' returned with the remark that  
Capt. Oliver's team and driver were  
discharged by me on the 25<sup>th</sup> of May last.  
When he first applied for his team I  
had them recruiting which they much  
needed. I did not give up <sup>the</sup> ~~not~~ <sup>the</sup> Negroes  
at that time because I did, conceive  
that I had any authority to do so.

Afterwards on his representation that  
he wished to move I released both

treated by me in the same manner  
that all others were treated in regard

conceive that he is justifiable in  
making any complaint in regard  
to my action in the premises.

Dear sir

I called on Capt Birge for my teams at the time that he was ordered to forage them, I objected to my teams being foraged but preferred to take them. Capt Birge consented to give me up the teams, but refused to give me the drivers, I having no drivers there could not take the teams, Capt Birge's excuse for returning my drivers was that I had not my quota of negroes in the service, when I had at the time six bonds in the confederate service, the above is submitted for your consideration, Your Most obedient

Sir -

As Agent for the purchase of Cotton on acc of the Govt. I have made my report to my superiors to which you are referred - my purchases in the aggregate reach about 25,000 Bales - about  $\frac{4}{5}$  is located on the East of & in the vicinity of the Ouachita River. The balance of it is on the West of the river and portions of it out in the hills 15 or 20 miles distant. It is situated that it would require the enemy to occupy the Country for many months in order to get it out. - If you desire it. I can probably buy 6 or 8000 Bales additional. Similarly located -

The Cottons are generally of a good character costing from 12 to 20<sup>cts</sup>. They have been paid for with the exception of abt \$900,000.

Respectfully  
C. G. Young

I have been directed to remove these Cottons from the most exposed places. I have 50 or 60 wagons now employed in that way. No portion of my purchases have been destroyed as yet -

Respectfully

Touching the report of Mr  
G. S. Jones upon your action  
in connection with the impressment  
of Cotton here, I have to state, that  
he is in error as to the statements  
made as to his conversation with  
me. I stated, that you had en-  
sulted me as directed by your  
orders; that upon one occasion,  
in the case of #15 bales impressed,  
belonging to a Mr Gallagher, who  
proposed to give one half to have  
the other half released, that you  
proposed to comply with this request  
as in your opinion Gallagher would  
apply to Genl Magruder, and have  
the whole released - I advised you  
to make no compromise in the case  
as I deemed the Cotton impressible  
under Genl Smiths orders, and advised  
you to let the responsibility of its  
release rest with Genl Magruder who  
afterwards learned from you, re-  
leased the whole and not from impress-  
ment, and permit to export it. Mr  
Jones misunderstood me in  
stating, that I protested against  
your action. I expressed the opinion

most decidedly against the propriety  
of the District Commander releasing  
large amounts of Cotton from  
impressment and permitting it  
to be exported, and which Cotton I  
believed to be impressible under  
Genl Smiths orders. The above  
is the substance of my conversa-  
tion with Mr James. I did not  
know the amt of Cotton that was  
impressed & could not have sta-  
ted that 11000 bales was impressed  
& did not state that Genl Magruder  
had assured me that Maj Dickson  
would act only in consultation  
with me & by my advice as no  
such assurance was given to me  
by Genl Magruder. The repairs  
alluded to, were upon the Gallagher  
Cotton, which was released by order  
of Genl Magruder, against  
which I did not protest.

You will remember on one occasion  
when conferring with me about im-  
pressments of Cotton you informed  
me that Genl Magruder had given  
you discretionary power to act in  
reference to impressments, according  
to your own judgment. I replied  
to you, "Sir, take no responsibility  
in matters of such grave import-  
ance, act only in accordance with

written orders, otherwise you will ruin  
yourself." & to the best of my knowledge  
& belief you have so acted.

A clause in a communication from Mr L. J. James to Capt C. N. Fannell, C. S. The gentleman; I think is incorrect who disrespectful & as my position is well known at Fort Hancock Quarters I think it unnecessary here to explain it being fully aware at the same time that you are fully acquainted with the facts of my appointment. What Mr James's grounds may be for supposing me "ex officio Chief man of my Office" I can not understand.

Capt,

In compliance with instructions from the District Commander, I have the honor to enclose report of my proceedings as acting inspecting officer in this command. I could not get it completed farther than Oct 15th but will continue the report from that date to 15th Nov and will forward it at the earliest moment possible, my report however covers the period during which Mr James made his espionage. I have also the honor to enclose for the information of Maj Gen Magruder & Lt Gen C. R. Smith Comm'y Dept Official communications and certificates sufficient to prove false and unfounded the disrespectful reports which this man James has seen proper to communicate to Capt Fauntleroy C. Sneed's positive denial of reported conversation between himself and Mr James as stated by Mr James. Maj S. Hart's representation of facts in regard to his conversations with Mr James in which, it will be seen, that Mr James misrepresents both Maj Hart & myself in every word & line addressed to Capt Fauntleroy C. S. V. I also enclose communication addressed to me by Capt Meschler which also proves how false and unfounded is Mr James whole record in regard to that officer.

C. H. Williamson's examination of my books and papers, resulted in an approval of every one of my actions; his report to Col. Chauncey E. T. G. a copy of which he voluntarily offered me, has been already transmitted to District Hd. Quarters, which I desire placed with these papers as partial evidence in my defense against the report of censure which has been received and entertained at Dept. Hd. Quarters. It is perhaps unnecessary to follow Mr. James' communication farther than to prove his accusations concerning me false and unfounded. He dwells extensively upon a lot of cotton marked W. belonging to Mr. Washington, this gentleman is in peaceful possession of 450 negroes. He asked for a pass for 60 Bales of Cotton which under Special Order C. 151, I, of course granted. This volunteer detective learns too, at Eagle Pass that I signed permits in blank. My checks upon the officers and employees in my office I consider perfect, and they will bear the test of military scrutiny. In all cases, not covered positively by orders, my action is held subject to my decision, whether I be present or absent. I have never been absent from this Post, since I have been in command except for fourteen days from the 10th day of Sept. to the 24th day of Sept. 1863. The District Commander knows the object of this absence which I am sure must recommend itself to the approval of any patriotic officer, who desires to take part in what appears to him will be the struggle of our forces, with the enemy. My report will however, clearly show exactly the system which I have inaugurated.

for the purpose of carrying out the best interests  
of this Govt. Under the orders I have received, it has  
worked well; Mr James' statement, to the contrary  
notwithstanding. He gives what is termed val-  
uable and interesting information concerning a lot  
of Cotton marked U. D. This cotton is a lot sent  
out by Maj Pearce's Contractors, under orders  
from the Maj Genl Commdy. As to conscript drivers  
I know nothing of them, not being an Enrolling Officer  
and attending simply to my own business.

I do not think it necessary to notice this Com-  
munication any further. The Secy of War. is as  
liable to error in his judgement of a man as  
any one else; and however represented at Dept  
Wd Quarters as a respectable and intelligent  
Citizen. I have produced sufficient evidence to  
prove Mr S. L. James any thing else, to say  
nothing of a former knowledge of him. I have  
this to state and I am confident that the Maj  
Genl Commdy would have sustained my action;  
had I known his purpose and business here  
I should have arrested him as a spy and asked  
for orders to banish him from the country as  
a character evidently attempting to inflict  
injury upon our Country by standing the energies  
of officers in positions of high responsibility  
and trust. If this vindication is not sufficient  
I have already demanded a Court of Inquiry  
if it may be deemed necessary.

Sir

The Cottons at Pulaski, belonging  
to the Bank, are in very bad order. a large number of  
Bales will have to be cut out. I propose to undertake  
to put all the Cotton regarding affairs in good shipping  
order, to cut out all the bad Cotton. to furnish all  
the labor and ties which may be necessary to do the  
work in a hurry like manner. the ties to be made  
out of white oak or Hickory. and will be furnished  
on the bales - for the sum of five dollars per bale,  
to be paid in the New Currency. The Bank to furnish  
all the bagging necessary. and to give me the  
use of any ties, which may belong to the Bank, to be  
found at Pulaski. I also agree to repair the  
Sheds & put them in a condition to shade the  
Cotton & protect the Cotton from damage by the weather.  
the expenses of which to be determined after the work  
is done, to be paid for in proportion to the amount  
of labor & time consumed in the work.

Cotton mostly in good condition

(Memorandum March 11. 1864)

Col W A Woodworth Chief Cotton Bureau  
Dear Sir.

In the absence of my friend A. Backus. I enclose the accompanying report to you of the cotton in Manchaca Parish, I have not visited all the plantations personally, those that I have not visited I have obtained information from reliable persons who have seen the cotton lately and in whose statements I place every reliance. The Ouachita river is now rising slowly and there is enough water in Bayou Bartholomew for a small boat, but not enough in Bouf River to take out any thing. The season is now so far advanced that I question very much whether any considerable quantity of this cotton could be shipped even if it was the desire of the government to do so. The cotton except that specified as at the landings of the planters is from five to fifteen miles from landings and the planters are all very short of teams for planting purposes which will cause much delay. The Landings on Bayou Bartholomew are nearly all above St. Pleasant which is the usual terminus in that stream unless in very high water of which there is very little prospect at this time. The men of cotton in Ison Parish I have been unable to visit. The small streams were many of them swimming fast the ferry flats are all taken away. From the best information I can obtain, I believe the cotton at Jim Hook has been moved but whether to a place more safe or less dangerous I could not ascertain. The 150 Bales of Sellers is pretty well torn to pieces. Bayou Rouge off and scattered about the levee no more for two days past from the Miss River. The guards are

keep matters pretty strong between them and keep them out of the way when they get troublesome

Dear Sir.

I am pleased to inform you of the fact of my having to-day turned-over to B. B. Breazeale sufficient Transportation & Labor to fix-up all the Gumb Cottons in this Parish. — Breazeale is now fairly at work and will doubtless soon be able to give a good account of his movements.

The full & satisfactory Report can be given of these Cottons until they are over-hauled, hence Breazeale will make his reports to you of each Lot, as he finishes repairing & shuffling it. In this way he will be able to inform you of the number of Bales as well as condition of each lot.

Some Bagging will be much needed here. Much of the Cotton can be made transportable by Patching where the Ends & small portions of the Bales only are exposed & torn-off. Hence it will save much expense and labor to have enough Bagging to Patch them, instead of Rebaling.

You might send enough for 100 Bales at least, down by Boat to this place.

When the Bales are entirely exposed and have to be refixed. Oak-ties & Boards will of course have to be used.

Buazeau has requested me to  
speak to you in regard to his continuing  
to attend to the interest of the Gornah Cottons  
in this Parish, as long as such attention  
is required. He is you are aware, fully  
acquainted with the Country and localities of  
all the Cottons as well as the Planters who  
have necessarily, to assist in refitting & processing  
the Cottons. Hence I would remark that he  
is probably as well qualified to attend to  
the business in this locality as any-one who  
could be sent here. - He is energetic  
and capable in every respect, and also, has  
fully at heart the interest of the Government.  
If you would speak to Judge  
Gray in regard to the matter, when convenient  
and have him permanently assigned to duty  
in the Cotton Dept. your interference would  
be much thankfully acknowledged by Mr  
Buazeau and also.

Yours true friend  
H. M. Payne.

Enclosed, please find two Receipts for 9  
Bales of Cotton, left by me on the route  
to Parkers Bluff. I had forgotten to mention  
that Buazeau is incapable of field service  
and has the Surgeons certificate to that  
effect. Hence he is only fit for some Bureau  
work such as that required hereby.

Yours favor of the 17<sup>th</sup> inst is duly at hand. You  
will please accept my sincere acknowledgments  
for the generous manner of expressing your personal  
appreciation of my application.

I was well aware of the ~~fact~~ of Congress prohibitions  
the people from trading with our Commander,  
declaring it to be illicit. I was also aware that  
the Government did or had disposed of Cotton  
to relieve its necessities and permitted its export by  
way of the lines of the army.

I certainly made no application in contravention  
of the above principles and I must think that you  
wholly misunderstood my object and the import of  
my communications. I made it as an officer  
not for my benefit, or of any other, or of the  
people. It to supply the army in the field with winter  
clothing and blankets is not a part of the necessities  
of the Government. I confess my inability to  
determine what constitutes necessities. You say you  
must decline my proposition because of its  
being arrogative of law; Will you be kind  
enough to inform me by whom Cotton can be  
lawfully exported? if not by an officer of the army

General,

I have the honor to acknowledge receipt of Special Order #209 Part II directing Lieut Col H. A. Broadwell to report to the Commissary Genl at Richmond. Col Broadwell has been for more than fifteen months at the head of the Estab Bureau of this Dept. and his services are absolutely necessary to wind up the affairs of that office. I will require until the 1<sup>st</sup> of Feb 1865 and I have fixed that time by the enclosed General Orders, to accomplish this, and for that reason I have deemed it advisable to detain Col Broadwell, and have to request that my action be approved. I am today in receipt of copy of a long communication from Mrs. O. Barnes to Capt E. K. Taunton U.S.A. giving the result of his observations in passing through Tex as to the manner in which the exportation of Cotton through Mex is being conducted. It is now too late to furnish a report by this mail. I am under the impression however, that if my letters & reports have been submitted to the Maj Genl Comd he understands my position thoroughly. I have to state however for the information of the Maj Genl Comd that every item of my business touching Cotton has been submitted to the board of examiners appointed by Lt Genl C. B. Smith & I am requested by Maj Williamson now present in my office to say so far as I am concerned every thing is entirely satisfactory. If further inquiry into my affairs is necessary

if the May Gene Commdy is not  
satisfied I have to request at  
once that he will appoint a  
Court of Inquiry to investigate  
the matter. So that his information  
may be as perfect as he desires  
No Commdy appearing in relation  
to Mr Jam's letter & I am fearful  
that the gentlemen's high  
character & respectability may  
lead him into error. I have  
here to request that when this  
matter is satisfactorily placed  
before the St Gene & May Gene  
Commdy I may be released from  
all duty touching Cotton, if I  
am to be reported upon & annoyed  
by an ordinary citizen travelling  
for his own information & for  
his own private ends, through the  
Country who is so base and low  
as to attempt to injure a C.S.  
Officer in the discharge of his  
duties I must peremptorily decline  
acting in a capacity in which  
my actions are not at once sus-

Shreveport Feb 15<sup>th</sup> 1865

Col, Upon thinking over the desire of the Commanding General to feel sure that if he adopts the plan proposed that some definite result will accrue to the Department, we cannot but coincide with the reasonableness of such wish. We therefore submit the following offer, that if as the results of four months operations - as a minimum - three hundred thousand dollars are not realized - we will advance to this Dept upon the pledge of cottons as security at a fair <sup>rate</sup> ~~rate~~ with the right of exportation, whatever sum may be the difference between the amount received <sup>therein</sup> ~~therein~~ the above three hundred dollars for six months without interest - and will the rate of advance to be not more than the cost of said cotton to the Govt. And if at the expiration of said six months it is not convenient for the Govt to return said sum then we shall have the right to export the same to any foreign market we may deem best & either charge ten per cent commission ~~for~~ upon the amount of sales above all charges incurred together interest upon the sum advanced at the rate of seven per cent per annum from the beginning or claim in lieu of said commission & interest whatever profit may be between the advances made & the net

results - in other words have the right to  
assume the cottons at their cost or vice advanced you.

The above is upon the condition that the  
federals continue their policy - or <sup>impose</sup> ~~this~~ <sup>this</sup> ~~policy~~  
not as no one could then operate so no loss  
could be sustained by adopting our plan.  
Again in order to provide for such changes  
as might occur in the market value of  
cottons from causes beyond our present  
foreseeable - if the market should be  
such that payment of the \$50. per bale  
would render the profits insufficiently  
remunerative to us that we shall have  
the right to pay instead thereof one half  
of the net profits. It might happen that  
the entire profits above the price paid to  
the planter would be eleven cents - after  
allowing ten cents to the Govt only one cent would  
remain to us - This would be an inadequate  
remuneration - It might happen that the  
net profit after paying the planter would  
be eight or nine cents only - This would be a  
poor loss - but if upon the ~~profits~~ <sup>market</sup> proving  
unsatisfactory we had the power to ~~claim~~  
pay to the Govt half the profits, it would be  
as much as Govt could expect upon new  
terms & no loss of time would occur - The \$50  
per bale would however be advanced in the  
first instance in support of the subject of

subsequent account—

The four months to commence from the first of next month - as this month is now almost wasted

I have gone into details in order to provide for all exigencies, although I do not believe that I run the least risk of even being called upon to perform ~~the~~ <sup>an</sup> obligation. For to be frank with you I do anticipate better results than I have thought it proper to lead you to expect in my letter of this morning.

Upon condition that the trade is confined exclusively to us we would be willing to buy from the people their cottons & pay the Govt £10.00 per bale of 500 lbs for the right of export - We would also buy from the ~~people~~ whatever cottons it might have in the same localities at the same prices paid to the people for like quantities -

With rights of export upon the same terms as for the people's cottons -

As the market has recently shown itself to be subject to violent changes, & as it is always to the interest of Govt that her contractors should have freedom from apprehensions of great loss so that they may always feel justified in operating liberally - we desire, if the market should become unsatisfactory to us, to have the right to pay the Govt a moiety of our profits upon transactions in lieu of the £10.00 per bale as the charge for right of export - This to apply to all cottons whether bought from the people or at an equivalent price from the Govt - Of course the £10.00 per bale being invariably advanced in the first instance, the exchange of it subsequently for a moiety of profits being matter of after account.

It is the interest of Govt that in all advances made, that contractors should have ample reason to know that such advances would not be attended with loss of a suspension of hostilities.

occurred between the Confederate Govt & the U. S. States, in order that advances may be made to the utmost ability of those making them without apprehensions of ultimate loss. Therefore upon any balance of account due us by Govt upon a suspension of hostilities, that we shall have the right to claim payment of the same <sup>in the same manner as if the right to include the right to export the same</sup> even if we dealing cotton at ten cents per lb.

And for any debt due us upon suspension of hostilities the cottons of this Dept belonging to Govt & not otherwise specially pledged shall be considered specially subject to any account due from Govt to us as above.

Where interest from Govt to us may become due that when not otherwise agreed, it shall be at the rate of six per cent per annum.

The Govt now owes us \$60.000 in coin upon cottons. & if above terms are accepted we will advance \$20.000 further - thus placing to our credit with the Govt upon the above terms \$160.000 in coin.

Colonel

I have the honor to inform you that May Dickinson commanding this post has submitted to me a copy of a letter addressed to May Col Magnien on the 11<sup>th</sup> inst, <sup>by Capt G. S. West at Col</sup> accompanied with a copy of a communication from Mr. J. L. James to Capt Hawthorne.

I have the honor to state that May Dickinson immediately on my arrival at San Antonio submitted to me his correspondence on the subject of Colles, together with a detailed statement showing the number of Colles imposed in his command, ~~together~~ with remarks showing the number of Colles released and the orders under which the releases were granted. In making communication to the St Col commanding I have availed myself of the information obtained from this statement. as will be seen by inference to them.

I beg leave to say I should have forwarded a report based upon this statement of May Dickinson, but as

his duties had been merely executive and  
he had not been concerned in the sale, or  
change or transportation <sup>of cotton</sup>, I did not consider  
it my duty to do so.

May Dickinson having been solemnly assured  
by Mr J. L. James I have the honor to  
state, that I am unable to discover how  
any fault can attach to the conduct of  
that officer in the performance of his  
duties in connection with cotton.

I may be allowed to express the conviction  
that I have rarely met with an  
officer in the service who seems so conscien-  
tious and vigilant in protecting the rights  
and interests of the Government as May Dickinson.

I have the honor to be, Sir, your obedient

servant

Cotton Bureau, Sept 2<sup>d</sup> Sept. 1864

Genl,

Our forces under Gen Taylor are reported at "Pleasant Hill". The Cotton of Talchitotes Parish, if not destroyed, is considered exposed to the Enemy, the Cotton Cotton on Red & Courte River is considered so situated that it cannot now be either removed or burned. Mr L.P. Comer & Mr Jos W. Remond. propose to receive a transfer of this cotton or any other liable to loss. It pays the Cotton \$500 per Bale in available funds to such an extent as it can be saved. Both gentlemen are well known to me, as true to our Cause, deeply interested in our cause. men of standing & worth before the war & perfectly reliable in point of integrity. I propose with your approval to transfer to them these Cottons, accepting their proposition herewith submitted - It is regarded as favorable among much by the Bureau & Union, who recommends it. & upon whom I rely to explain your difficulties & the peculiar circumstances governing your action if it is not understood for Reclamation. There are some objectionable features in the proposition, relating to the removal of the Cotton, which the parties think can be protected & shipped to Europe, but these I was unable to get removed - and it must be distinctly understood that they shall be subjected to no delay or hesitation in shipping the Cotton. com. Should our forces recover promptly the Country. -

Head Quarters, Trans-Mississippi Department,

OFFICE OF THE COTTON BUREAU,

State of Louisiana }  
Parish of Caddo. } This agreement made & entered  
into between Samuel P. Conner of the first part & Joseph  
Ménard of the 2<sup>nd</sup> part both citizens of Louisiana

Shreveport. 2<sup>nd</sup> April 1864.

Witnesseth: That whereas a joint proposition to  
purchase the Govt Cottons without the Confederate lines  
has been accepted by Lt Col W A Broadwell representing  
the Govt & the same has been transferred to Samuel  
P Conner party of the first part, & by him in part  
or in whole transferred or placed at the disposal of Jos  
Ménard party of the 2<sup>nd</sup> part. It is understood & hereby  
mutually agreed upon that our interest or rights in the  
property as above described or its proceeds after the same  
for sale has been ~~placed~~ applied to the extinguishment  
of our obligations given for equal amounts in the pur-  
chase less other expenses which we may severally  
or jointly incur shall be equal & coextensive, and that  
our obligations held by the Govt we mutually covenant &  
bind ourselves to pay in accordance with the spirit of  
our propositions herewith attached & which sets forth the  
terms upon which we acquire the property. It is mutual-  
ly agreed that these Cottons will be placed under the  
for shipment to New Orleans & sell there, or shipment to a  
foreign market by his instructions, that these arrangements will  
be made through W. S. Pike of Baton Rouge & Fergus Peniston  
of Manchac that 40 % of the profits realized from such  
purchases will be given to W. S. Pike & Fergus Peniston.

for the use of their services & influence & credit, and the securing  
the aid of such parties as may be required for the successful  
management of this transaction. It being understood that  
the 40% profits allowed said Pike & Peniston will cover the  
allowance they will have to make to secure the services of such  
other parties, except commercial & custom house charges.

Samuel P. Conner will employ his train free of charge in  
moving these cottons to the banks of the river whenever there is no risk  
to the train from the Federals. In case of death or disability

Mr W. S. Pike will represent Mr Jos Menard & Jos T. M<sup>r</sup>

Murran will represent Samuel P. Conner

Samuel P. Conner will superintend the removal of these  
cottons on board of Steam boats. This agreement shall apply  
to all cottons which may be hereafter bought on joint acct from  
Govt. This agreement gives no interest, <sup>whether</sup> to W. S. Pike & Fergus  
Peniston: the 2750 bales permitted to be exported as per reference  
to 1st paragraph in S. P. Conner's proposition to purchase Govt  
cotton dated 31<sup>st</sup> March 1864. It is understood that in the event of  
death or disability to either of us, that the proceeds of the cotton  
are to be first applied to the payment of our obligations held by the  
Govt in accordance with our proposition, and W. S. Pike &  
Fergus Peniston are hereby so instructed to liquidate the same

Instructions to the  
Chamberlain to  
organize train to  
rescue sacop  
heavy duty.

Handwritten text in a cursive script, likely a personal letter or a page from a diary. The text is written in a fluid, connected style, characteristic of cursive handwriting. The ink is dark, and the paper appears aged and slightly discolored. The text is arranged in several lines, with some characters being more prominent than others. The overall impression is one of a personal, informal document.

with the Government stores and <sup>waggon</sup> (animals)  
in his charge to the Saline of Judge  
Avery - depositing on the island - all  
superfluous property ~~not~~ required for  
mining purposes - he will then return  
from his services - an efficient  
team for the removal of Government stores  
(recently captured -) to either Lafayette  
or Apolousas - as may be directed by  
the commanding officer at Berwick Bay. to  
whom he will report. Without delay -  
for service as herewith indicated - as  
this train is designed for the removal of  
Government salt - and diverted temporarily in  
view of an emergency existing - it is expected  
that no Confederate officer will interfere  
with its ultimate destination or molest it -

Mr. - Chambelain - will call upon  
the 9<sup>th</sup> masters - for the required forage -

### Public Meeting

There will be a public meeting of the Cotton Planters  
of Port Beaud County held in Richmond on Monday  
next, the 22<sup>nd</sup> Inst, for the purpose of consulting  
together and devising some means whereby they may  
be protected from the impositions imposed on them  
by the Cotton Bureau, and Cotton Agents -

Every Planter is requested to attend -  
August 16<sup>th</sup> 1864 -

Deal -

The above emanates from a Mr. Tolson, who  
has always been a patriotic planter, but always  
opposed to the Govt plans for acquiring Cotton - It  
will, I suppose, inaugurate a series of like meetings  
throughout the Country -

Mr John the Depot Agent has written Capt Shropshire  
to appear there without fail on behalf of the Bureau

# MISSISSIPPI TELEGRAPH COMPANY

EXECUTIVE OFFICE, JACKSON, MISS.

It is hereby notified that the Company is not responsible for the transmission of messages, over its lines, of any kind, except those of a public character, and that it is to be received at the station from which it is originally sent. Half the usual price for transmission will be charged for repeating the message, and while this Company will, as heretofore, use every precaution to insure correctness, it will not be responsible for mistakes or delays in the transmission or delivery of repeated messages, beyond a reasonable amount, exceeding two hundred times the amount paid for sending the message. The Company will not be responsible for any delay or interruption in the working of its telegraphs, nor for any mistake or omission of any other company, over whose lines a message is to be sent to reach the place of destination. The Company will not be responsible for the transmission of any message, except those of a public character, and that it is to be received at the station from which it is originally sent.

Mr. S. P. Parker

Respects to Mr. Cotton

Sir

I beg leave to state a few facts in regard to the sale & condition of the Cotton sold by me to the Committee. After the sale, I stored the Cotton, 80 Bales, all in good order, in an outbuilding on my plantation, where it was thoroughly protected from the weather & would have kept for years. About the time of the arrival of the Opinions from Pine Bluff, Maj. Elliott C.S.A. issued orders that all Cotton should be rolled out to be burned. In compliance with this order, I moved this Cotton out into a field at some distance from my house. Some time elapsed, say about months & the Cotton not being burned & receiving no orders to put it back, I built a shed over the Cotton where it lay. Upon visiting it some time subsequently I found the covering of the shed blown off - I immediately had it repaired. Sometime after this going to see the Cotton, I found the shed again blown down & I also discovered that four bales of the Cotton had been abstracted & several other bales had been cut open & a portion of their contents removed - I observed the tracks of wagons which leading from the pile of Cotton to the public road some distance off but could trace them no farther. I at once fixed

good roof over the cotton again. During these several exposures, the bagging rope, had, on a good portion of the cotton, rotted & some portions (though small) of the cotton. Now, I do not think that I ought to be held responsible for the four bales stolen as the cotton was moved out of the secure place in which I had it & no orders were ever given to put it back & I was daily expecting the cotton to be burned and consequently did not feel authorized to put it back. I am willing, however, to do whatever is right. I have begun today hauling the cotton to my gin house & will store it in a good dry place & as soon as I lay by my crop, I will repack it & put it in good order, using white oak splits to tie it as I have no rope and cannot get any - I have, I think, sufficient bagging.

Hillsboro Arkansas June 20<sup>th</sup> 1864

I do hereby certify that on or about the middle of April last at about eleven o'clock at night it was discovered that my Gin house was on fire where I had a quantity of cotton stored & the Gin house together with all the cotton was consumed & among the cotton consumed was fifty one bales which I had sold to the Confederate States. Every exertion was used which could be done to save it but as the fire had got under too great headway it could not be extinguished until it consumed everything that <sup>was</sup> in and around it. It was the work of incendiaries there is no reason to doubt. Given under my hand the date above written

This is to certify there was eight (8) bales  
of cotton hauled away from the lot of (75) bales  
two bales of sacroment cotton lying at Wilmington  
the above cotton (8 bales) was represented as being  
taken by an order from the Government to Repurchase  
it By Mr J. J. Motters. the balance was burned  
by Mr. Lelaine sent out for that purpose.

h - June 30. 1864

I hereby certify that about the middle of April last four men representing themselves as soldiers of Genl Regent Marenadun's Brigade came to my house in this place & stated that they had orders to burn all the cotton - They did not show the orders - I told them that the seven bales here belonged to the Government - They then had the cotton rolled out, allowing me to take off the Ragging & Ropes and burned the cotton with the exception of one bale which they gave to my wife for spinning purposes.

My son E.E. Hoge who sold this cotton to the Govt, sold also (54) Fifty-four Bales which were at Wilmington & (33) Thirty-three Bales that were at Tom Cole's plantation 4 miles from this place. The 54 Bales at Wilmington, I am informed were burned by the military authorities. I do not know this of my own knowledge -

Of the 33 Bales at Cole's plantation, (5) five Bales & portions of the contents of several others have been stolen & taken off by parties to one unknown - So that of the 94 Bales, there remain only (38) Twenty-eight Bales - My son has been dead since June 1863 - I am not & have never been his Agent or legal representative in any form, but have exercised as

much care over this cotton as I could  
well do -

When the men came to burn the cotton  
here, I demanded of them a receipt or  
showing of some kind, as the cotton was  
in my care - They replied, that they would  
put, in their memorandum book, the num-  
ber & marks of the bales & report it at head  
quarters but would give no other showing.  
There was no officer present, tho' the men  
said the Lieutenant was coming on be-  
hind & would soon be here - He however  
never came -

I do hereby certify that about the middle of April last there came to my house three miles south of this place some six or eight men all well armed and told me they had come to burn all the cotton that I had I told them I ~~was~~ thought it was not right and if there was any danger of its falling into the federal hands I would burn it myself they said they were sent here by order of General Price to burn all the cotton and they were a going to burn it I then told them I had sold eighty nine bales to the Confederate Government & they said their orders were to burn all the cotton and told me to have the eighty nine bales of Government cotton rolled from under the shed or they would have to burn it when it was I had it rolled away from my gin house and they then burned it they said they belonged to Gen. Command of Harmacluk's division I wanted them to give me a receipt for the cotton but they refused to do so and said they did not give any man a receipt but made a minute of it <sup>in</sup> their memorandum Book the No of bales and the mark on each bale and they returned that book to headquarters

Handwritten text in cursive script, likely a letter or journal entry, spanning across the center of the page. The text is written in dark ink on aged, slightly stained paper. The script is fluid and characteristic of the 18th or 19th century. The text is arranged in several lines, with some words appearing to be underlined or emphasized. The overall tone of the handwriting is formal yet personal.

Handwritten text in the bottom right corner, possibly a signature or a date. The text is written in a similar cursive style to the main body of the page. It appears to be a date, possibly "1791" or "1801", followed by some initials or a name.

 I would be very sorry to take

Confederate States of America  
Bureau of Subsistence.

Richmond, July 20th.

Sir,

I have the honor to acknowledge the receipt of your letter of the 17th inst. in relation to the Bureau of Subsistence. I am glad to hear that you have been selected as the temporary Chief of Subsistence for the State of Virginia during the absence of Mr. Thomas. Your services will be of great value to the Government by the fact that you have been the cooperator in arranging for supplying the supplies for the Country since he first went there.

You are therefore charged with the duty of purchasing, collecting, and distributing all Subsistence Stores, as set forth in the Circular I am enclosing the authority to purchase under the act of Congress, with General Order No. 27, 28 & 29 of 1864, for your guidance and instruction.

You are to confer with the Genl. Comd. in the selection of your Agents, having due regard to their ability and character.

Very respectfully,  
Your obedient servant,  
J. M. Smith

I should enclose you a circular issued from  
this Bureau and approved by the Chief of Bureau for  
which you were to have that you have been  
receiving as the temporary Chief of Subscribers for  
the State of Wisconsin during the absence of Mr  
C. H. Russell. You are a person of much  
power and influence by the fact that you  
have been his cooperator in arranging for  
collecting the subscription for the Country School  
the first week this

You are therefore charged with the duty of purchasing, collecting, and distributing all delinquent Slaves, as set forth in the several Acts under the authority hereinafter under the act of Congress, with General Orders No. 27, 29 & 32 of A. S. G. O. for your guidance and instruction.

You can confer with the Gene Council in the selection of your reports, having due regard to their ability and temperance.

To all whom it may concern

Office Chief Commissary,

1863

The organization of the Commissariat in this State  
by dividing it into districts, & then subdividing it for the purpose  
of a proper distribution of Subsistence Stores, conformably to the  
orders of the Commissary General of Subsistence, approved by the  
Secretary of War, is now in operation. This system is administered  
by officers of ability & experience & is deemed adequate to meet  
such consequences as may arise. The orders in force indicate  
but one method by which commissaries from other States, whether  
at Depots or with armies in the field can obtain supplies from  
this State, and a strict adherence to them is indispensable to de-  
velop the resources of the States alike. + + + + +

All District Commissaries in this State, therefore, their  
sub-commissaries & agents are hereby directed to prohibit inter-  
ference within their appropriate limits, and if shipments of  
purchases so made be attempted, they will take steps to pre-  
vent them & if necessary impress the Stores.

Resident quarter masters are respectfully requested  
to refuse transportation & mail shipments, & to report the  
same to the Commissary in whose District the same  
may occur.

Respectfully

Suggestions for  
Circular Address

The Lt Genl Comdy this Dept, finding himself thrown upon the resources of the country to sustain his military operations, has established a Cotton Bureau, as a means of providing arms, munitions of war, clothing, blankets, shoes & other things needed for our soldiers.

It is expected that the action of the Bureau will meet the opposition of speculators and that unproductive class who have grown fat on the laurels of the cotton. But to convert their ill gotten gains into gold by transferring cotton to foreign countries, experience has shown that these men bring back little or nothing of any value to our army, as their importations are confined chiefly to luxuries, beyond rather articles of luxury.

In general they have been acted under a system of Began Contracts, and it is believed now that they will claim that the protection of law authorizing the export of cotton, but the Congress has wisely provided a Subsequent law, under which cotton can be imported for various purposes, as no doubt can exist in the mind of any one who will look at the condition of this Dept & contemplate

the requirements of the Military Service,  
that the necessity exists for ~~improving~~ all  
Cotton. which attempts to leave the State  
in advance of the introduction of supply.  
equivalent in value. this is further  
proved by the orders of Lt. Gen. Smith.  
Who by virtue of the <sup>extra</sup> ordinary powers  
conferred ~~upon~~ upon him by his Excellency  
the President - is the proper body,  
assuming that the action of the ~~Board~~  
will be governed by law. and the orders  
of the Depy Commander. It is announced  
that the Cotton of Texas is required for  
Government purposes. and that all which appear  
to leave without the consent of this  
Bureau is liable to be impounded.

Planters are requested to sell <sup>or</sup> ~~such~~ portions  
of their crops... to be paid for with <sup>certificates</sup> ~~Certificates~~  
the obligations of the Govt. redeemable  
hereafter as. Congress may determine,  
they are ~~entirely~~ ~~allowed~~ ~~to~~ ~~afford~~  
facility in their power to ~~assist~~ the officers  
in removing Cotton thus required to points  
where it can be readily available for  
Army purposes. by which they will  
be compensated liberally in cotton after  
it reaches its destination. <sup>as a</sup> ~~by means of~~  
~~including~~ <sup>to return them</sup> ~~these~~ ~~very~~ ~~good~~ ~~cotton~~ ~~landed~~  
with plantation supply rather than

needed for the Country,

as a guarantee that every transaction made hereafter will be entered into in good faith for use of the Government only. The business shall be conducted by well known Citizens of the State, all of whom are instructed to keep accurate accounts of the quantity purchased, the persons from whom it is obtained and the disposition made of it, ~~and to~~ to ~~rehabilitate~~ their books, and furnish information to any gentleman, influenced by a sense of Justice, who may desire to see for himself the practical workings of the system proposed.

General Smith has recently sent into this State two members of his staff gentlemen of the highest respectability to investigate, find out which are alleged to have been concerned, and the action of these ~~persons~~ ~~persons~~ shall be subject to any examination required by the ~~proper~~ ~~authorities~~ and the chief rely upon good citizens every where, to support the officers in counteracting rumors which may be circulated to its prejudice, the tendency of which is to undermine the character, and weaken the usefulness of our military leaders as also to defeat the plans of General Smith, the success of which is of most vital importance to the property ~~interests~~ ~~of~~ the State.

Prepare the public mind by a  
presentation of facts for the culture of the  
Bureau in Texas. State firmly that  
you respect the opposition of Speculators  
and their impatient class, who have  
given pain on the lands of the  
Country, and who seek to further  
enrich themselves, on account ~~that~~ they  
all gotten gains into land by a system  
of Bogus Contracts. These Speculating  
Speculators have like vultures, over  
the entire land, & spread every where  
their foul and bloodstained wings.  
When they find themselves likely  
to be thwarted in their own selfish  
schemes - but that the Bureau  
will not confer upon Speculators  
the right to sustain its action. Which  
will be liberality to the producer &  
loss to all.

Announce that the cotton  
of the Country is required for Export  
purposes & that everything which  
appears to have without your consent  
will, be taken possession of under the  
Law. Provide clearly the principles  
by which it will be governed. as also

the imperative necessity for its organization  
and restore confidence by placing the  
business in the hands of a ~~strong~~ <sup>man</sup> of high character & the requisite energy  
& ability, who will satisfy the people  
that any transactions made hereafter will  
be entered into for use of the Government  
only. Establish Depots at Allenton  
for Antwerp, Toledo, & other points  
owned safe for the deposit of cotton  
Consignment of crops to the surrounding  
Country, where cotton can be concentrated  
within the greatest facility & at the  
same time rendering available in meeting  
the requirements of the Service.  
Station houses & ~~receiving~~ <sup>receiving</sup> at these  
Depots to receive the cotton & pay the  
freight on it, & hold subject to Army  
order. Close the gates against the  
export of all cotton which appears  
to have without permit from this  
Bureau, by requiring for export per-  
mits under the Law.

The coastwise trade can be controlled  
by communicating with Army officers  
at the various shipping points of  
necessary Station & purchasing officers  
at each place acting under special  
orders from you.

Establish the impression that this  
Board is not only honest, but will  
work with energy & efficiency, & be  
able if properly sustained by the people  
to accomplish the wishes of the Dept  
Commander. Indicate clearly that  
the policy inaugurated will be  
frankness, something which the  
people can understand & rely upon.

Under such a plan firmly established, and consistently enforced, we think that we can safely guarantee that no Cotton will be exported, for which a full equivalent has not been brought into the Country, or paid for by service to the Government. And that every Bale shall be faithfully devoted to supplying the wants of the Army and people. -

Time is requisite to carry out the work. Months may elapse before full results can be realized. - But we pledge ourselves to diligent and faithful effort. Our energies and ability will be devoted to the work, for we feel that our interests and honor are involved in its success. Everything we hold dear is identified with Texas, our home and Country. The trust is delicate and laborious. - Nothing but a sense of duty, and the emergency, which

From it is clear to the weather. The above report contains the cotton bought by the Government under the appointment of Dr. Brown. The list but does not contain more than one fifth of the Good Cotton in the Country where I have traveled. It is however about the same condition of the above report. M. H. H.

List of Cotton furnished  
by B. C. Young -

Col. W. A. T. Broadwell  
 Chief of the Cotton Bureau  
 New-Mississippi District  
 Shreveport La.

Dear Sir

Below I furnish you with a list of Cotton purchased for the Confederate States of America by the undersigned under authority from Hon. J. D. B. De Bow General Agent H. Not a bale of this Cotton has yet been lost to the Government by accident or otherwise. Taking it together the quality will come fully up to the classification, and it is all so far as I have been able to ascertain still in good order. The lots marked X thus have been removed to localities deemed safer, and one fifth of the Cotton was paid for its transportation and Storage. Yours Respectfully  
 C. G. Young  
 Agent  
 Monroe La. Sept 1<sup>st</sup> 1863.

Mr Sir:

Nathaniel's 3<sup>rd</sup> June 1861

Enclosed is the Statement of  
Cotton purchased in which W. W. With-  
ering has one half interest. There have  
so many things without the Bills of purchase  
of the Cotton that I cannot at present  
to state it; reference will have to be  
made to Mr. Rutland for the most of it  
as he purchased the greater portion, that  
however can be done when ever required

Please send it to Col. Rodwell, any  
explanation or information wanted  
concerning the matter will be promptly  
furnished - the whole sum up to \$  
107900.00 of which amt. He (Withering)  
furnished \$58944.44

Very Respectfully &c  
C. L. Walmsley

Mr Richd. August  
or Col. R. A. Rodwell  
Cotton Bureau  
Shenandoah Co

I have written to Hugh  
In acknowledging rept. of the enclosed  
please mail by Mail - the Courier here  
is too irregular.

San Antonio Dec 4th 1863

On the 24th of May 1862 I purchased of Maj R. A. Armistead of Washington County, his Cotton crop 953 Bales, 53 of which for Mr Twohig for Government use, and the remaining 100 Bales of lower grade than I was authorized to buy for Mr Twohig. I took to complete an unfinished prior engagement for Messrs H. D. Norton & Bro. San Antonio. Without the knowledge or consent of Mr Twohig or myself, and while I was engaged elsewhere, a party of Consript Teamsters, in the employ of Mr Twohig, learning there was a quantity of Cotton at Maj Armisteads, Gin which had been purchased by me, called there and took on loads of the Norton Cotton and delivered it to Mr Twohig at San Antonio. Before the mistake was known to Mr Twohig, the Cotton had been repaired by him and part of it started to Mexico. Under these circumstances he declined delivering the Cotton to Norton & Bro, and directed me to purchase for them as early as practicable, the same amount and quality of Cotton, and to charge him with the excess, should it cost more than the Armistead purchase; and likewise with the transportation of same, any additional distance the Cotton might have to be hauled. Should the purchase be made at a greater distance from San Antonio than Maj Armisteads. The purchase was made as directed, and embraced in the accompanying report, and Mr Twohig retained the 100 Bales, RSA.

Thinking it proper that you should be informed of the facts I submit this statement.

To Col A. W. Terrell

Present

Yours truly,

Thos. D. Johnston

There is some fear of the bales reported in good order that has one head out of the bales but still in condition to be shipped. All of the cotton reported in bad order will have to be repaired before shipping. The most of it will have to be repacked and baled before it can be moved.

Major G. Williamson,

Head Quarters,  
San Antonio, October 15<sup>th</sup> 1865.

Sir:

In connection with this report I send you a copy of oath taken by bona fide Mexican Citizens — as also by Planters, also a blank form of pass, as well as blank statement furnished all shippers, upon which to make statement of Cotton on hand, which Cotton in every instance was sworn to be purchased with the proceeds of goods imported into this Country. To prevent fraud they also made oath that this Cotton was their personal property, & not turned over by any person whatever.

I also enclose you a written statement of my proceedings in which I attempt to state briefly some of the difficulties that have arisen in these transactions. The system worked well if none, but the original exceptions made in the instructions of Lt. Genl Smith & Maj-Genl Magruder, had been introduced. I may safely say that I never have held this day for the use & benefit of the Government, between four & five thousand Bales of Cotton; but as matters now stand, interfering in this Command is a waste of time & material. To prove to you, to what extent the improvement can be carried I have the honor to enclose copy of a Circular issued by myself, which completely stopped competition, & gave me the power therefore of reducing the price of Cotton in this Market from 72 Cents to 50 or 55.

Had a disbanding Officer been placed subject to my orders, large quantities of Cotton could have been procured at very reduced prices.

I have the honor to be,

Very Respectfully,

J. P. Dickerson  
Major & Adj.  
Comd'g Post

Texas Custom Office,

Houston, July 11, 1854,

I certify that the foregoing list is a correct statement of the exemptions granted by this Office based upon rights acquired by the parties previous to the organization of the Office. Such as are not covered and protected by the Regulations for Overland Commerce, fall within the prohibitions and Maj. Willie will be guided entirely by his instructions and orders in any action he may take upon them.

H. H. Perkins, General Agent for the  
 Grande District and in Mexico

Each of the officers in charge of districts are held  
 responsible for the acquisition of new land  
 within their respective districts in accord-  
 -ance with the provisions of Act No. 34  
 from Sept 1st 1890. The State of Colorado  
 is required to acquire land and it is  
 -wanted as directed in their written instructions  
 under to Mexico in this place. The State  
 the County agent is found in office and  
 -resents to their land the District officer  
 are authorized to receive their and appoint  
 others

May Chas Russell is accredited in

General orders as Chief of Transportation  
and his authority will not be questioned  
by any one acting under my orders.  
If sufficient transportation cannot be  
obtained at the Government order in the country,  
acquisitions will be made from Maj. ~~Chas~~  
Russell, who will make arrangements  
to forward all Cotton from the Central  
Depots at which it may be concentrated,  
and, if necessary, move it from the  
interior into these Depots.

Capt. G. C. Wells will represent me  
at this point, and if necessary, give  
instructions in my name. He will pay  
for the Cotton brought in at issue at  
once, adding fifty per cent to the price  
to make it equal to new currency,  
and also issue exemptions for a like  
quantity, authorizing exportation.

It is not intended to require any officers  
to report to his junior in rank. The business  
is purely commercial in its practical workings  
and should be prosecuted without any  
reference to rank.

The correspondence of this Office will be  
conducted by Capt. Wells, and all communi-  
cations in regard to Cotton should be addressed  
to him.

The Cotton acquisitions will be disbursed  
as directed by Col. Hatch, who is  
charged with the management of Military  
Stores, which have been ordered purchased  
by Genl. E. Kirby Smith.

All Govt. Cotton reported to Mexico

will pass into the hands of H. M. Perkins  
General Commercials Agent in Mexico who  
will make purchases of supplies and dispose  
of the Cotton as instructed by Col. Ketchum.  
Capt J. C. Smith will perform similar  
operations at San Antonio.

Capt J. C. Ransom is entrusted with  
the settlement of Major Harts business,  
and will first apply the resources of  
that office to the liquidation of the  
indebtedness contracted by Major Harts.

All Officers and Agents are required  
to forward the Cotton in good order and  
with dispatch, and to bring to bear the  
greatest energy in order to meet the  
requirements of the Service and pay the  
just debts of the Government.

The lower routes of travel are recommended  
for the transportation of Cotton to Mexico.

Maj. A. K. Hillier has established a  
branch of his office at Gonzales, and  
those who have sold to the Government may  
obtain permits to export a like quantity.

Capt. H. M. Bennett & H. A. Benge  
will purchase one half the Cotton of  
Northern and Eastern Texas in their  
respective districts and forward as  
rapidly as possible with their transportation  
to Texas, and thence by Perry. They  
are directed to make requisitions on  
Maj. Chas. Russell for any additional  
transportation which may be necessary  
to move the Cotton purchased by them.  
Holders of Cotton who sell in the district

of either Capt Barnett or Capt Pennington  
 require no right to export a like quantity  
 unless the half sold to the Govt is  
 delivered at some of the Depots established  
 by Lt Col Hutchinson. These, Manila  
 and Porters Bluff are designated as  
 most convenient.

Cotton hauled to the Depots will be weighed  
 there if the vendor prefers. In which case  
 a certificate of receipt will be given by  
 the Depot Agent instead of the purchasing  
 Agent.

The Schedule prices named rule in all cases  
 where Bag & Rope is furnished by the

Govt - When the vendor furnishes his own Baggage Rope the Schedule prices are doubled - but if the whole lot of Cotton is sold and a specie draft given for any part of it the single schedule makes only one price -

When Baggage Rope is furnished it may be for the whole crop of ~~seed~~ ~~Cotton~~ - Payments to be made out of the C.S. money proportion of the value of the Cotton, at 60¢ per yd or the for Baggage Rope - The vendor to Receipt for the Baggage Rope as a voucher for its use -

When one half the Cotton is sold, payment is made in C.S. notes, new currency, or old currency at its legal value, discount, either at single or double notes as the case may be, when Baggage Rope is or is not furnished - And an exemption will be issued protecting the exportation of a like quantity and quality -

When the whole of the Cotton is sold the single notes only, rule, and no exemption can be acquired - Payment will be made one half in C.S. notes and one half in a Specie draft on Matamoros -

The present makes paid for transportation one and a half cents for ox teams & two cents for mule teams per pound each one hundred miles -

At a new Cotton Bureau

Hamton 20th Nov 1863

St Paul Smith directs  
a Cotton Bureau for Texas organized; Composed of  
Gentlemen, with W I Hutchins as Chief.

A Copy of his letter appointing you, and instructing  
me, is herewith transmitted, This letter, which  
sets forth the fundamental principles by which the  
Bureau will be governed, the functions it is expected  
to perform and the power vested in it -

It is suggested that the Bureau will collect  
and place in Deposit sufficient Cotton to complete  
Contracts involving the good faith of the Govt; and  
procure such Army Supplies as may be made known  
as necessary. The Cotton will be used in the payment  
of debts, and in exchange for other Commodities  
through a purchasing officer under the direction of the  
Bureau. It is expected you will ascertain the  
resources of the Govt as also its liabilities in Cotton,  
and apply the former to the extinguishment of the latter,  
in the order in which they mature, or appear, or pro-  
bate, as may be most equitable and just -

The letter enclosed is designed to constitute authority  
for your action, as well as a guide for your course,

It awards to you a discretionary power in making  
improvements - It directs that no Contract based upon  
Cotton shall hereafter be made unless approved by the

The Cotton Bureau, and that you are left  
free to adopt your own policy, and arrange  
details without liability to be changed by any  
one except the District Commander, and by  
him only after consultation with the Bureau  
for Texas -

Very Respectfully,

Yours Obediently

WAB

### Memorandum

The Cotton Bureau for Texas is organized,  
composed of W. J. Hatching as Chief, James  
Daley, R. A. Shepherd, Geo. Bull, & W. J. Hyle as  
assistants. The Board thus formed has determined  
upon a policy which it is decided shall be  
permanent. It is suggested that the Machinery  
be placed in motion as promptly as possible & that Hatching

1st Issue a short concise address to the people,  
to be published with the orders, setting forth  
the programme and principles

2nd District the Cotton growing portion of the State,  
appoint a competent business man to represent  
the Bureau in each District, & furnish him with  
a letter of instructions

3rd Establish Central Depots for the  
Concentrations of Cotton, as for example Allegheny

Pennham, Wallerstown, La Grange & San Antonio,  
locate at each place a good Depot & purchasing  
Officer, who should know how to class Cotton  
and take care of it. Agents will ultimately be  
required at various other points, Navaroto,  
Hibbitts Bluffs, Matagorda, Texana & Corpus  
Christi. The officer at Eagle Pass or San Antonio  
should be an accomplished business man perfectly  
incorruptible, and well known to the Board as  
possessing the requisite qualifications -

It is important the the Bureau should be  
represented by a Man of Sagacity and tact,  
Capable of getting along smoothly with Mexicans, so  
as to influence transportation on the frontier at the point where  
it is proposed to close the gates against the export of Cotton.  
The Coast Mail trade should be similarly guarded -

4th Obtain the services of some efficient Man in the  
Capacity of go M - instructed to get up transportation  
enough to move Cottons, bought by Agents of the Bureau, where  
the Agent cannot provide transportation to the Central Depot  
himself -

5th - Arrange with the Bureau of Conscription to  
control the services of a few hundred Conscripts now  
performing Military Duty. They might make transportations  
and do nothing else -

6th The Cotton going into Depot should be accurately  
classed and branded with some Mark, distinctive  
of the grade, not only for convenience in the distribution  
of the Cotton, but in order that the Cotton of the Bureau  
can every where be known by the Mark denoting the grade,

Report of the  
Commission  
appointed to  
investigate  
Cotton frauds  
in Texas.

Col. J. J. Anderson.  
Shreveport La.

Col. — In obedience to the requirements of a communication No 1979 addressed by you to the Senior Officer of the Commission, appointed by the Lt. Genl. Commanding, to investigate the papers and Reports, of Officers who have been engaged in the management, purchase, or transportation of Govt. Cotton under authority of the War Department, we have to report as follows: —

The request communicated to J. J. Devine, Confederate Judge for the District of Texas and his consent given to aid the Commission in the investigation, has already been communicated to Head Quarters.

Capt Ducayet was sent at an early day to Brownsville to examine the Customs House Books at that point, and procure such data as would be useful in future investigations. Upon the arrival of the Senior Officer of the Commission in San Antonio, such importance was attached to the examinations to be made on the Rio Grande, that the other members of the Commission, including Judge Devine, started with as little delay as practicable, in order

that all might conduct in person, the investigation at Brownsville, and such other points on the Rio Grande as might be considered necessary.

Information reach us in the way, at the crossing of Agua Dulce, that Brownsville had been occupied by the enemy and we returned to San Antonio to resume the investigation of the affairs of Major Hart, and of such other Officers concerned in the purchase of cotton, as might report to the Commission, under orders from Department Head Quarters.

The short time which elapsed between the arrival of Capt. Ducajet at Brownsville and the abandonment of that Post, renders it improbable, that he has even partially accomplished the object of his mission. He passed into Mexico, and is returning by way of Monterey and Eagle Pass.

A resort to ~~the~~ other sources of information, <sup>than</sup> a mere inspection of Books, deemed so necessary, that the Commission resorted to an expedient which, it is respectfully submitted, will furnish the best means for obtaining the reliable basis for a final report. A communication was addressed to George J. Durham, Commissioner of Taxes for the State of Texas, a copy of which with his favorable answer has already been forwarded. In that letter he was requested to direct his subordinates

- 3 -

Officers, in each County to ascertain and report the amount of Cotton sold by each person representing himself as a Govt. agent - to whom sold - the date of sale - the price paid - the marks of the Bales - the amount delivered, and the amount still on hand. In connection with this, interrogatories were propounded to the Collector of Customs at Eagle Pass, and similar interrogatories transmitted to Mr. Latham, Collector at Brownsville, to neither of which have answers yet been received. These interrogatories, seek to elicit the following information viz: The amount of Cotton that has passed through the Custom House on account of Govt. and by whom - the amount passed by private individuals and by whom - the amount passed under permits to export cotton, in favor of what parties and for what amount. In addition to this information, they are requested to report the amount of the  $\$5\frac{00}{100}$  specie exchange tax on cotton collected under military orders, the length of time it was imposed, the parties to whom it was paid and the amount of arms, munitions of war and military stores imported and by whom.

Thus it will be seen that after procuring a tabular statement through the Commissioner of Taxes under Official Sanction, which

will show the Cotton Transactions of Officers and Govt. agents throughout the entire State, and procuring from the Customs House a statement of the amounts exported, the marks of which are recorded, the data will be secured by which to test the accuracy of reports made by Officers and Govt. agents. Even this system of investigation, which it was believed, to be the best that could be devised and which will secure information without expense, will not in all respects be reliable.

By letter No 782 addressed to the Senior Officer of the Commission from Dept. Head Quarters he was directed to investigate thoroughly the papers, books and affairs of Major S. Hart purchasing agent of the War Dept. in the District of Texas, and to make a minute examination of everything connected with his administration of the duties entrusted to him by the Secretary of War. This was regarded as alike due to the public and to Major Hart's reputation as an Officer.

This investigation has required much time and patient research and has secured from its importance our chief attention. The fact is, however, that the very general impression which prevailed, throughout Texas that the public interests

- 5 -

entrusted to that Officer had been mismanaged. The prevalence of that impression is known to all; and yet after two months notice through the papers of the country, that his official conduct, and that of others was undergoing investigation, no evidence has been produced by any one, to fix upon that Officer one act of moral turpitude connected with his Official transactions. He cannot report that Major Hart has committed no wrong in his official acts, this would be the assertion of a negative, which we would not venture in behalf of any one. But a careful examination into the affairs of that Officer through the medium of his books, correspondence, invoices, contracts, vouchers and the reports of his agents has failed to disclose any just basis for official or public condemnation. The duty to which he was assigned as "cotton agent" for the War Office and principal purchasing officer of the Quarter Masters Department for the District of Texas would have been full of difficulty under any circumstances, but these difficulties were so much multiplied by causes beyond his control or that of any other person that he could neither supply the necessities of the army, nor meet the expectations of the Government. His failure

to supply the army has for a long time been manifest, and our investigations have convinced us that any officer or Bureau charged with the duty of supplying the army by using cotton as a medium of exchange would likewise fail under similar circumstances.

The contract system which had been found to be a failure before the operations of Major Hart began, has been continued during his administration, and the facilities afforded him, which it was thought would enable him to supply the army, have been shared in common by an army of contractors, loosely appointed agents, speculators and voluntary associations.

Major Genl. Magruder, having been directed by Lt. Genl. Holmes to give such orders as would enable the Government to obtain supplies from the exportation of cotton through our lines in the Rio Grande, published on the 22<sup>nd</sup> of February A.D. 1863. his Genl. Order No 28. It will be seen by reference to that order, that while all persons were allowed to export cotton across the Rio Grande, none could be exported except by those who had imported goods or supplies and they were permitted to export only to the extent of the Custom House value of the original invoices at the port of entry with 100 per cent added.

-7-

Had this order prohibited the use of conscript teamsters by any one, except by the officer charged with the duty of supplying the army, it is believed that the most favorable results would have followed. But the powers of the Maj. Genl., though exercised to accomplish this end, were inadequate to the task. Contracts made with the sanction and under the direction of Superior Authority, were then in existence which he had no authority to control. In Genl. order No 65 Genl. Magruder required all conscript teamsters then being employed to be turned over to Maj. Hart, except where they were being used under authority emanating from the War Office or the Comdg. Officer of the Department. This order appears to have failed in the accomplishment of its object, and the evils resulting from individual cupidity, remained unabated. Had order No 28 continued in force, though Maj Hart might have failed, the army would have been supplied through other channels. But unfortunately for the Trans-Miss. Dept. the necessities which embarrassed it, and the mysteries of its cotton interests, were not, and could not be understood beyond its borders, and order 28, and every other order, having for its object the procurement of supplies, by imposing restrictions on the exportation of cotton, was annulled

in obedience to the requirements of a letter addressed by the Hon. Secretary of War to the Commandant of the Department. The letter of the Secretary of War, in effect, declared that the military authorities should do no act to prevent the unrestricted exportation of Cotton to Mexico, through its coterminal boundaries. This clearly announced the law but could that able functionary have witnessed the spectacle of capital, in the hands of speculators, aliens, and traitors, sucking investment abroad through the medium of cotton, thus draining the country of its resources, without any benefit to the army or people, he would have recognized the existence of a military necessity paramount to every other consideration.

It is our firm conviction that order No 28, in which Gen. Magruder sought to the extent of his power to thwart the efforts of unscrupulous enterprise, would have accomplished its object had it not been revoked.

Your attention is invited to the enclosed better copy of a letter from Maj. Hart to the Secretary of War of date May 16<sup>th</sup> 1863, a copy of which has been already transmitted to Head Quarters. Here, the fact is disclosed, that the difficulties which would embarrass the operations of Government were clearly

persons and their effects predicted. Evidence has been submitted that whole trains of Government Cotton, driven by conscript teamsters, were left upon the highway, the teamsters tempted by the higher freights paid by individuals.

A great number of persons, prompted by individual enterprise or cupidity, were enabled by exorbitant profits, made upon goods introduced into the Country before the blockade of our Ports began, to pay from San Antonio and Elleyton, rates of freight in specie ranging at the specie standard of currency from 75 to 90 cents in Confederate Treasury Notes. These persons, operating under permits, and contracts and invested with privileges and powers, equal to those enjoyed by the Chief purchasing Officer of the Department, were enabled through the means, and actuated by the motives suggested, to pay for transportation, rates of freight which no officer of Government would be excusable for countenancing.

By such means a currency already inflated, has been ruinously depreciated, universal distrust and suspicion has followed, and the prospect for supplying the army in the field has diminished in proportion as the army of speculators has increased.

- 10 -

Between the 21<sup>st</sup> day of July 1863 and 12<sup>th</sup> day of December 1863 twenty thousand eight hundred and forty one Bales passed through the city of San Antonio alone through which passes but one of the many routes over which cotton has been transported to the Rio Grande. Of this large amount but two thousand eight hundred and forty three Bales was Government cotton. We have unofficial information from the Collector of Customs at Eagle Pass which will soon be received in authentic form, that nearly thirty thousand Bales have been exported at Eagle Pass alone during the last twelve months, of which but a trifling proportion was Govt. cotton; and it may be safely assumed that three times that quantity has passed through Brownsville, besides the large amounts exported at intermediate points, with perhaps no larger proportion for the Govt.

For this evil there was but one remedy, which we would suggest under favor, has in our judgment been adopted by the St. Genl. Comdg. viz. To lay the strong hand of Government upon the cotton of the country.

55

- 11 -

under a policy at once just and liberal to the producer. But two interests are entitled to consideration, the interest of the Government and that of the producer, and the privilege of exportation allowed the former should be so regulated and checked as to prevent its abuse.

By Paragraph IV Special order No 162 all officers in the District of Texas, Arkansas, and Western Louisiana, were required to "transmit forthwith to Col. A. W. Terrell at Houston, care of Major Bloomfield, a list of the agents they have heretofore had and now have engaged in the purchase and transportation of cotton and an abstract of the contracts they have made which are to be paid in cotton, together with a statement whether such contracts have been fulfilled in whole or in part and the cause of failure if known." The report of Major Bloomfield himself has been received and is herewith forwarded, but no other report has reached the Commission through the channel indicated.

We transmit for the information of the Lt. Genl. commanding an abstract statement of the contracts made and assumed by Major Hatch, together

- 12 -

with a statement of the amount of cotton purchased by his agents and the amount of supplies delivered. An approximate estimate of the amount requisite to enable him to meet existing obligations is also forwarded with an abstract statement of the amount of cotton appropriated by him in the liquidation of liabilities. These, with the enclosed statement, showing the number of bales in transit, taken in connection with the information already transmitted will, it is believed, place the St. Genl. Commanding in possession of all the facts touching Major Hart's transactions within our knowledge.

By Special order No 327 from District Headquarters, all officers and agents engaged in the purchase and removal of cotton in this District are required to report to Lt. Col. Hutchins, Chief of the Cotton Bureau, and be governed by his instructions. Those who have cotton contracts or permits, are required to present them for revision, ratification or cancellation. We would suggest in this connection that Major Hart, acting under special orders from the highest military authority in the Confederacy, should be permitted to complete existing contracts made by him for the procurement of supplies, except in cases where the contracting parties

elect to receive satisfaction of their claims upon the Government at the hands of the Cotton Bureau. When this is accomplished his authority as cotton agent should cease, except in subordination to the Bureau. If it be charged with the duty of controlling the Cotton of the country, to meet the necessities of the army, it should be invested with power Major Hart has not been permitted to exercise; and that power it cannot have, if he be unnecessarily continued, independent of its control.

The Cotton Transactions of Major Washington, of John Tuckie Agent and Contractor, of McMurty & Atkinson, agents and Contractors, of John R. Jefferson, Government agent have received our attention. These gentlemen like Major Hart have afforded the Commission every facility to examine into the character of their operations. The failure to receive the Reports of subagents will prevent a full report of the transactions of either except of John R. Jefferson, whose account is forwarded after being examined in connection with appropriate vouchers.

Thomas D. Johnson, a subagent of John Tuckie was recently arrested and subsequently released. His account has been carefully examined in connection

with his vouchers. That he acted under the honest conviction that under Mr. Twobig he was a sub-agent of the Government is manifest and his report herewith transmitted shows the purchase of cotton which was invested in Government supplies, at a lower rate, than any one whose transactions we have examined. Our investigations have disclosed nothing prejudicial to his character as a gentleman. His principal, John Twobig, sometimes designated in special orders as "Agent of the Nitre and Mining Bureau" and sometimes as "Contractor" occupied really the position of Contractor alone until June 1863 when his character as contractor ceased, and his agency began. That he regarded himself as agent is manifest and the character of his contract onight will produce such an impression, as it seems to have ~~done~~ made on the Brig. Genl. Commanding the Sub-District. His contract was finally completed by the importation of supplies. What amount of Cotton has been purchased by him we are unable to report.

The accounts of McMurry and Atkisson have been already forwarded. An investigation of their affairs was begun, as in the case of John Twobig

under the impression that they were agents and not contractors. They occupied until recently the attitude of agents for one department and contractors with another. Their account shows that they have furnished the Government  $2^{\text{nd}}$  Mors. and Ordnance stores valued in specie at \$285,637.<sup>73</sup>/<sub>100</sub> for acquisition of which, they refer to the Books of Majors Rhett, Haynes, Burton and Alexander at Dept. H.S. Quarters. The amount of cotton reported by them as being sold and exported as a medium of exchange, all of which they claim to have purchased with their own means, has already been forwarded to your office.

The failure of Officers and agents to report their Contracts, in accordance with published orders, renders a more extended report impracticable. Business before the Commission not yet complete for the want of necessary information will be left with Judge Divine, and be turned over to Capt. Ducayet on his arrival. The enclosed letter from Mr. Duchant, Commissioner of Taxes, shows that six weeks must yet elapse before the information to be procured from the Tax officers of the various Counties can be received.

With the enemy on the coast now threatening to penetrate the interior, the Senior Officer of the Commission feels himself justified in hastening to his command, without waiting to be relieved from the present duty by orders; which he trusts will, under the circumstances, meet the approval of the Lt. Genl. Commanding.

If we have transcended the bounds of legitimate comment in referring to the cotton interests of the country, we hope the motive will be appreciated, for the evils of the past have been referred to only that they may afford lights for the future.

The views which we have expressed of contractors and speculators in cotton, as a class, will scarcely be endorsed by any one, who is within the range of that influence exercised by concentrated Capital; but we express the firm conviction, that it would be better to apply the torch to every bale of cotton in the Department, than longer to permit the army of cotton speculators to operate within our borders. They can only be useful when compelled to bring supplies before exporting our staple.

We have the honor to remain

Westward.

HEADQUARTERS, DISTRICT WESTERN LOUISIANA, N

ALEXANDRIA, July 31st, 1863.

[EXTRACT.]

SPECIAL ORDERS, No. 193.

I. An important service connected with Government Transportation having been confided to the charge of Major A. W. McKee, Q. M. and General Agent to purchase Cotton, he is hereby directed and authorized to call upon the Planters of all the Parishes South of, and including Natchitoches, for one half of their transportation wagons, mules and oxen, and one negro driver for each wagon.

In case of refusal or attempt at evasion of this order, Maj. A. W. McKee is authorized to impress from such planters all their transportation or such portion as he may deem proper, also if deemed necessary, to require planters to state under oath the amount of their transportation.

Planters who have at any previous times furnished more than their quota of transportation to the officers of this department will upon producing the proper evidence of the same, be exempted in some proportion in the service now required. As it is determined to defend to the last extreme South and West Louisiana, it is earnestly hoped that the planters one and all, will promptly come forward with their transportation to the aid of the Government, thereby saving the necessity of impressment of transportation or Cotton.

Major McKee is authorized to employ such persons as may be necessary to aid him in carrying out his instructions and furnish such persons as may be of conscript age with an exemption from military duty while actually employed in said Government service.

For any expenses attending above service, Major McKee will make his requisition upon the chief Q. M. of this Department.

By command of

Major General TAYLOR.

E. SURGER, A. A. General.

ADVERTISEMENT--SPECIAL NOTICE TO PLANTERS.

In compliance with above order, the undersigned now calls upon the planters to send their quota of teams and drivers, to the following named agents—in Alexandria, to M. M. Rhorer, office Cotton Agency; in Natchitoches, office of Messrs. Walmsley & Co.; in Washington, St. Landry Parish, office of the Post Quartermaster. for the purpose of transporting Cotton to Niblett's Bluff on Sabine River, distant 140 miles from Alexandria, over the new government road, the bridges are all newly built, grass and water abundant, the price fixed is very liberal, say \$10 per 100 lbs, double the rates of last year; where planters join together and furnish a train master (white man) to every twelve wagons, he will be paid liberal wages and exempted while so employed from military duty. An agent will be appointed to canvass each Parish to see that the above order bears equally upon all. All white men furnishing teams and driving the same will be exempted from military duty while so engaged.

Genl. Order 142

Headquarters, Department of the Gulf.....  
New Orleans Sept 30th 1864

General Order No 142

No point on the Mississippi River in this Department above the City of New Orleans is to be considered within the lines, under general order No 51. Headquarters of Military Division of Mississippi unless troops are actually stationed at such points. And the lines for the purpose of having under said order are defined to be within the limits of each Military Command. The temporary or permanent presence of a naval force will not constitute any point as within the line of military occupation. All passages brought to the river except at Military Post within the actual lines of practical Military occupation will be considered as inland and of war and so reported to the Steamers or Craft that may receive them for proceedings under General order aforesaid —

2nd

No Steamer or other craft navigating the River will be permitted to discharge passengers or merchandise other than at Military Post without permission in writing from the Provost Marshal Gen of the Department. In cases where such merchandise is received off on such boats or crafts at New Orleans, or of some Gen officer in command of points on the river, such permits must be given in the great center —
